

Is There Violence in Your Home?

Signs That Things Are Getting Out of Control:

- Family members physically hitting each other
- Verbal abuse or 'put-downs'
- Being made fun of, criticized, or insulted
- Threats toward family members
- Things destroyed or broken in the house
- One person trying to keep the family isolated

You Have A Right:

- To be safe.
- To not blame yourself for violence in your home.
- To reach out for help and support.
- To treat others and be treated with respect.

Things You Can Do:

- Remember, you are not alone!
- Stay out of the fight.
- Avoid getting trapped in a small room or the kitchen, or a room without an outside door or window.
- Find a phone in a safe place. Call 911 for help and stay on the phone if it is safe to do so.
- Create a 'safety plan' - list people or places you can turn to before violence happens in your home.
- Escape to a safe place – use the safety plan you have developed to get to a safe place.
- Even if you are afraid – find someone you can tell.

My Individual Safety Plan:

1. Safe places I can go: _____

2. People I can call _____

3. Things I can do if I feel threatened _____
