Broome County Outdoor Recreation Mapping and Promotion Project

Beth Lucas, Senior Planner Stephanie Brewer, Planner Broome County Planning May 12th, 2016

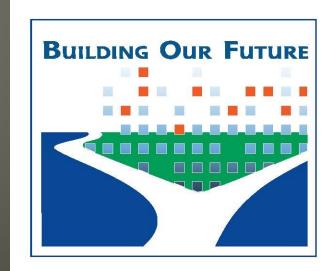

Overview

Background Data Collection Trail Mapping Promotional Strategy

Broome County Comprehensive Plan

- December 2014
- County's natural beauty identified as a major strength and opportunity.
- These assets can be an integral part of diverse initiatives including:
 - Economic Development
 - Tourism
 - Healthy Communities
 - Alternative Transportation

Broome County Comprehensive Plan

Recommended actions include:

- Assess and fill in gaps in data regarding outdoor recreation opportunities
- Heavily market recreational opportunities, including use of social media, advanced smart phone and GPS enabled mapping and existing organizations and venues
- Improve access to recreational and scenic resources through promotion and additional infrastructure such as boat launches, fishing access sites, and increased signage
- Support businesses that provide services and enhance the use of scenic and open space resources such as fishing and hunting guides, canoe and kayak sales/rentals, bicycle shops, and cross country ski shops.

What are some of the messages?

- Broome County is a destination for outdoor recreation enthusiasts (or boating enthusiasts, hiking enthusiasts, etc.).
- Broome County has opportunities for living an active, healthy lifestyle.
- Broome County offers a number of alternative transportation opportunities.
- Broome County offers a lot to do and is not boring.
- Broome County has many opportunities to enjoy its natural scenic beauty.

Partners

- Broome County Planning
- Greater Binghamton Chamber of Commerce
- The Agency
- Broome County Health Department
- Binghamton Metropolitan Transportation Study
- Broome County Parks

Broome County Outdoor Recreation Mapping and Promotion Project

Goal of the project

- Collect and map outdoor recreation data and develop a promotional strategy to increase awareness, usership and economic benefits.
- Two phases:

Data Collection

- Identify and gather existing data into single database.
- Identify and fill gaps in the data.

Promotional Strategy

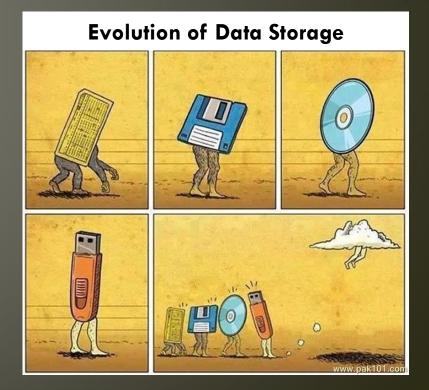

- Develop a branding and marketing strategy that showcases the outdoor recreation opportunities we have to offer.
- Modern, effective strategies and technologies that meet the needs of the modern outdoor enthusiast and the casual user.

Data Collection

Data Collection

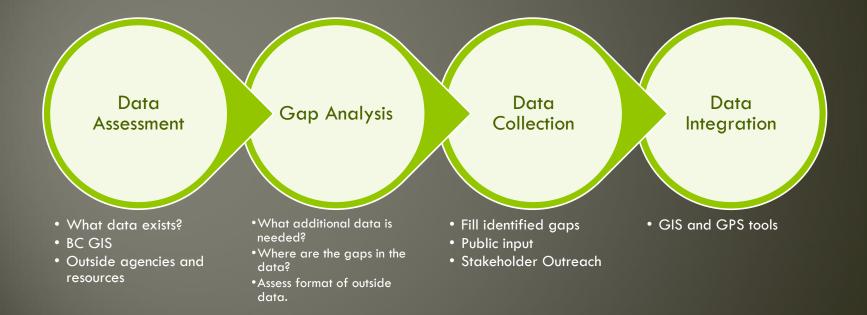

- Outdoor recreation data available, but not readily usable
- Maintained by several individuals/organizations
- Sometimes outdated
- Not compatible with modern technological uses (mapping applications/social media)

Data Collection Process

• Focused on collecting and standardizing data.

Broome County GIS

- Broome County has invested resources in developing an excellent mapping department (<u>www.bcgis.com</u>)
- Ability to map almost any resource
- However, requires work to establish complete data sets and put it them into a usable format.
- Some items that we have mapped:
 - Boat launches, parks, snowmobile trails

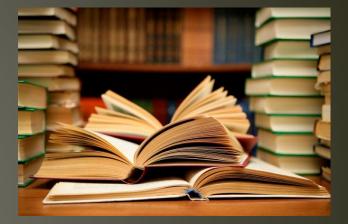

Questions?

- Is the existing data up to date and accurate?
- Is there more data that can be added to the Broome County system?
- Are there features and characteristics associated with resources that should be added to make use and promotion of these resources easier and more effective?

Outside Resources

- Local plans
 - Susquehanna Heritage Area Management Plan
 - Broome County LWRP
 - Open Space Plan
- Online websites and databases
 - NYS GIS data
 - Local clubs and organizations
- Printed documents
- Questions
 - What data is available?
 - What is the format of the data?

Local Clubs and Agencies

- Local organizations and agencies that use resources, and/or service those that do are a key source of information.
- Maintain their own lists, inventories or maps that highlight this information.
- Can provide information through knowledgeable members or staff.
- Utilize other existing sources of information that can inform our data collection process.

Local Clubs and Agencies

- Ahwaga Canoe Club
- Broome County Health
- Broome County Parks
- BC Snoriders
- Binghamton Metropolitan Transportation Study
- Broome County Sportsmen's Association
- Environmental Management Council

- Headwaters River Trail
- Naturalists' Club of Broome County
- New York Trail Riders
 Organization
- NYS Department of Transportation
- Southern Tier Bicycle Club
- Triple Cities Hiking Club
- Trout Unlimited

Stakeholder survey

- Initial Data Assessment
- Identify existing sources of data and data needs
 - 1. What outdoor activities are relevant to you?
 - 2. What destinations are important to you?
 - 3. What associated features would be useful?
 - 4. Does your organization maintain any data?
 - 5. What other resources do you use?

Results

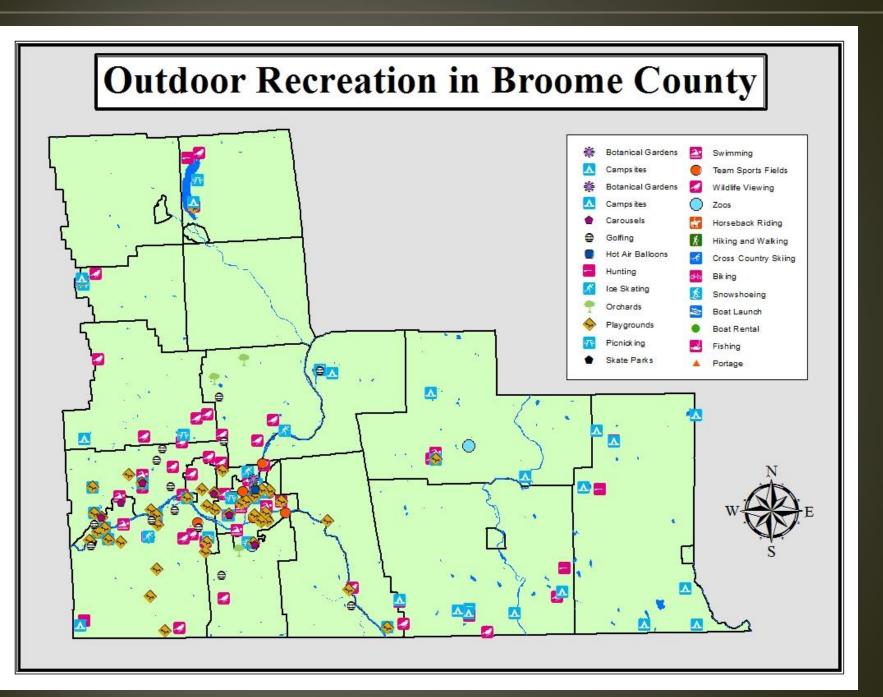

Features	Attributes Mapped			
Bike Trails	Trail Type, Length, Address, Website			
BMX Trails	Address, Website			
Boat Launches	Launch Type, Parking Availability, Restrooms, Website

Walking and Hiking Trails

Features	Attributes Mapped			
Hiking and Walking	Length, Surface Type, Restrooms, Address, Website, Unique Features,			
Trails	Difficulty, Hours, Elevation, Elevation Gain, Walk-Time, Near Town			

Identified as a significant data set, but incomplete

- Points on a map but not trails themselves.
- Maps are maintained by several different sources
- Trail maps that are available, aren't necessarily formatted to be compatible with mapping applications
- Trail Mapping Project Initiated

Promotional Strategy

Promotional Strategy

- In beginning stages, to be completed in Spring 2017
- Goals:
 - Use data to increase awareness, usership, and economic benefits associated with outdoor recreation opportunities.
 - Focus on integrating mobile ready, web-based tools that appeal to the modern user.
- Promotional Strategy
 - Interactive Mapping Tool
 - Strategic Marketing Plan
 - Branding Strategy
 - Promotional Materials
 - Web Presence
 - Social Media

Join in the fun! Follow us @wakegovparks and tag your photos with #OurWakeCountyParks.

Next steps:

Hire a consulting marketing firm

• Phase 1:

- Branding strategy
- Mobile-friendly website
- Interactive mapping tool
- Phase 2:
 - Promotional materials
 - Social media integration
- Phase 3
 - Stand-alone App?

Next steps:

- Public/Stakeholder Input
 - Upon completion of initial version of interactive mapping tool we will do outreach to identified stakeholders to assess:
 - Accuracy and completion of data
 - Functionality of mapping tool

Updates are posted on Broome County Planning's Facebook page: www.facebook.com/BCPlanning

Post Details

Broome County Department of Planning at Q Arnold Park. Published by bcplanning@co.broome.ny.us [?] - April 19 at 9:04am · @

We took advantage of the beautiful spring weather yesterday and mapped the trails at Arnold Park in Vestal. So far, we have mapped over 60 miles of Broome County's walking/ hiking trails with more to come! This week we will begin mapping the trails at Hawkins Pond Nature Area in the Town of Windsor.

What trails would you like to see mapped? Let us know!
