SUBJECT OF EXAMINATION: A test designed to evaluate knowledge, skills and /or abilities in the following areas.

Ensuring effective inter/intra agency communications

These questions test for understanding of techniques for interacting effectively with individuals and agencies, to educate and inform them about topics of concern, to clarify agency programs or policies, to negotiate conflicts or resolve complaints, and to represent one's agency or program in a manner in keeping with good public relations practices. Questions may also cover interacting with the staff of one's own agency and/or that of other agencies in cooperative efforts of public outreach or service.

Preparing written material

These questions test for the ability to present information clearly and accurately, and to organize paragraphs logically and comprehensibly. For some questions, you will be given information in two or three sentences followed by four restatements of the information. You must then choose the best version. For other questions, you will be given paragraphs with their sentences out of order. You must then choose, from four suggestions, the best order for the sentences.

Understanding and interpreting written material

These questions test for the ability to understand and interpret written material. You will be presented with brief reading passages and will be asked questions about the passages. You should base your answers to the questions **only** on what is presented in the passages and **not** on what you may happen to know about the topic.

Supervision

These questions test for knowledge of the principles and practices employed in planning, organizing, and controlling the activities of a work unit toward predetermined objectives. The concepts covered, usually in a situational question format, include such topics as assigning and reviewing work; evaluating performance; maintaining work standards; motivating and developing subordinates; implementing procedural change; increasing efficiency; and dealing with problems of absenteeism, morale, and discipline.

Organizing and Administering Social Work Services Programs

These questions test for the knowledge and ability to develop, oversee and administer social work services programs. Questions may cover such topics as developing and administering policies and procedures, planning, implementing, monitoring and evaluating program services and staff, interpreting and applying social services laws, regulations and standards, and representing agency programs to community agencies, individuals and groups.
