

Heard of Fentanyl?

Fentanyl, a potent synthetic opioid drug approved by the FDA for pain relief, is being mixed with other drugs, such as cocaine, oxycodone, and Adderall. People are often unaware fentanyl has been added.

Fake prescription pills are often sold on social media making them available to anyone with a smartphone, including minors.

4 OUT OF EVERY **10**
PILLS CONTAIN A POTENTIALLY
LETHAL DOSE

Criminal drug networks are flooding the market with fake pills laced with fentanyl. This contributed to a 560% increase in overdose deaths in 2020.

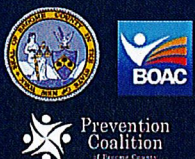

PARTNERING WITH LOCAL SCHOOLS, PARENTS/GUARDIANS & ELECTED OFFICIALS TO HAVE A COMMUNITY CONVERSATION

Who? Broome County schools, community organizations, anyone who loves a young person.

What? Educational films, panels and open discussions to share knowledge and decrease stigma on a variety of topics. (substance use disorders, prevention, education, opioids, marijuana, social media).

When & Where? School hours or after hours. We will come to you.

Why? Education, de-stigmatization, preventative action, open communication between parents/guardians, teachers, individuals with lived experience and students.

**OPEN COMMUNICATION AND
EDUCATION SAVES LIVES.
IT TAKES A VILLAGE - KNOWLEDGE IS POWER!**
