Broome County Office of Management & Budget

Jason T. Garner, County Executive · Jane St. Amour, Director

July 10, 2025

Honorable Jason T Garnar, County Executive Honorable Daniel J. Reynolds, Chairman of the Legislature Honorable County Legislators County of Broome Binghamton, NY 13902

Ladies and Gentlemen:

I submit to you the Annual Comprehensive Financial Report of the County of Broome, New York (the "County"), for the year ended December 31, 2024, in accordance with the requirements of Article V, §C502 (c) of the Broome County Charter.

This report presents comprehensive financial information summarizing the County's activities during the year ended December 31, 2024, and contains information useful for managers in the Executive and Legislative Branches of County government, taxpayers, interested citizens, and the financial markets in which the County issues its debt obligations. The financial statements included in this report have been prepared in conformity with generally accepted accounting principles ("U.S. GAAP") as applicable to governments in the United States of America.

This report presents the financial position and results of operations of the County and its component units that are properly included in conformity with U.S. GAAP. The data presented can be compared to the prior basic financial statements, and to other counties' reports to identify relevant trends.

Responsibility for material accuracy, completeness, and fairness of the information presented, including all disclosures, rests with management of the County and its component units. The presentation fairly discloses the financial position and results of operation of the County and its component units as measured by the financial activity of the various funds. Disclosures considered necessary to enable readers to fully understand the County's financial activities have been included.

To provide a reasonable basis for making its' representation, the County has established and maintains a comprehensive internal control framework that is designed to both protect the County's assets from loss, theft or misuse and to ensure that sufficient accounting data is compiled to allow for the preparation of the County's financial statements in accordance with U.S. GAAP. The comprehensive internal control framework is to provide reasonable, but not absolute, assurance that these objectives are met. Reasonable assurance recognizes both that the cost of internal controls should not outweigh their benefits, and the evaluation of costs and benefits require estimates and judgments by management.

The Office of the Comptroller is responsible for auditing expenditures. Additionally, audits of selected departments and financial activity are performed by the Comptroller's staff.

Internal controls are reviewed by the internal audit staff throughout the year.

Independent Audit

The County has an annual independent audit of its basic financial statements. The certified public accounting firm of Drescher & Malecki, LLP has audited the accompanying basic financial statements and their independent auditors' report is included in the financial section.

The goal of the independent audit was to provide reasonable assurance that the financial statements of the County as of and for the year ended December 31, 2024, are free from material misstatement. The independent audit involved examining on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. The auditors concluded based upon the audit, that there was a reasonable basis for rendering an unmodified opinion that the County's financial statements for the year ended December 31, 2024, are fairly presented in conformity with U.S. GAAP. The independent auditors' report is presented first in the financial section of this report.

Additionally, the audit was designed to meet the audit requirements of Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principals, and Audit Requirements for Federal Awards (Uniform Guidance). The Uniform Guidance requires the independent auditors not only report on the fair presentation of the financial statements, but also on the County's compliance with requirements that could have a direct and material effect on each of its major federal programs and internal control over program compliance. The Single Audit Report is not included in this report but may be obtained upon request to the County Comptroller's Office.

U.S. GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The County's MD&A can be found immediately following the report of the independent auditors.

Report Structure

The 2024 Annual Comprehensive Financial Report is comprised of the following three basic sections in conformance with recommendations of the Government Finance Officers Association:

- A. The <u>Introductory Section</u> is intended to familiarize the reader with the organizational structure of the County, the nature and scope of the services that it provides, and the specifics of its legal operating environment.
- B. The <u>Financial Section</u> includes the independent auditor's report, the MD&A, the audited basic financial statements, notes disclosures, and supporting statements and schedules to provide the reader with a comprehensive understanding of the County's financial activities for the past fiscal year.
- C. The <u>Statistical and Economic Data Section</u> presents comprehensive demographic and economic information regarding the financial condition of the County.

Profile of the County

Government Structure

The County is a municipal corporation established in New York State. The County was incorporated in 1806 and is governed by the Charter of the County of Broome, New York State County Law, and other general laws of the State of New York. The County is governed by the Board of Legislators (Board) comprising 15 elected members. The Board is the County's governing body and determines County policies. It consists of elected officials from each of the fifteen legislative districts in the County serving two-year terms. The County Executive, elected to a four-year term, serves as Chief Executive Officer and is responsible for County operations and developing the County budget. The Director of the Office of Management and Budget, appointed by the County Executive and confirmed by the County Legislature, serves as the Chief Fiscal Officer of the County.

The County provides a variety of services to its residents. Public Health is promoted through the programs provided by the County's Health and Mental Health departments. These include the health clinics, food subsidies provided to women and children through the Women, Infants, and Children Program (WIC) as well as the inspections of public water supplies. Sheriff's Office, District Attorney's Office, and Office of Emergency Services provide for the public safety through patrols, arrests and prosecution of criminals as well as emergency planning. Public welfare is enhanced through the programs of Social Services and the Office for Aging including temporary assistance to needy families, social services administration, home emergency assistance, and Meals on Wheels. The Department of Public Works builds, repairs, and maintains the County's roads and public facilities.

The County, with a land area of approximately 710 square miles, is situated in the central southern portion of upstate New York commonly referred to as the Southern Tier. The City of Binghamton is the County seat and is situated in the southern portion of the County. The City of Syracuse is 75 miles to the north and the Pennsylvania border is seven miles to the south. Binghamton is part of a metropolitan area running along the Susquehanna River Valley including the incorporated Villages of Johnson City and Endicott, and the Town of Vestal. According to the U. S. Census Bureau in 2020, the County's population was estimated to be 189,420. Broome County is classified as an urban county.

Reporting Entity

The financial reporting entity for the County includes all organizations, functions, and activities for which elected and appointed officials have financial accountability, or without the inclusion of, would render the County's financial statements incomplete or misleading. Oversight responsibility is based on financial interdependency, selection of governing authority, designation of management, ability to significantly influence operations, and accountability for fiscal matters.

The reporting entity has been defined to include all chartered departments of the County by which the following basic services are supplied: law enforcement, economic assistance, health and mental health services, maintenance of County roads, economic development, general administration, recreation, culture, transportation, solid waste disposal, and long-term care.

Also, included in the reporting entity are Broome Community College (the "College"), the Broome County Industrial Development Agency ("IDA"), the Broome County Soil & Water Conservation District ("District"), the Broome Tobacco Asset Securitization Corporation ("BTASC"), the Broome County Land Bank Corporation ("LBC"), and the Broome County Local Development Corporation ("LDC"). Information on all six of these legally separate entities can be found in Note 1 to the financial statements.

Budget Process and Controls

The County budget is the foundation for the County's financial planning and control. County departments and the Director of the Office of Management and Budget develop the County Executive's proposal to be sent to the County Legislature. On or before September 15th, the County Executive submits a recommended operating budget and a six-year Capital Improvement Program to the Legislature for approval. Public hearings are conducted by the Legislature and County Executive to obtain public comment on the proposed budget. The County Executive has the power to veto any modification made by the Legislature. An Executive veto can be overridden by a two-thirds vote of the Legislature. On or before November 25th, the annual budget is completed by adoption of an appropriation resolution, the legal authority for enactment of the budget.

After the budget is adopted, appropriations and estimated revenues are posted into an automated accounting system. An electronic review for available appropriations is performed prior to expenditures being incurred.

The legal level of budgetary control is at the character level within department level. A character is a grouping of similar appropriation/expenditure accounts. The County Charter prohibits expenditures for which there is no legal appropriation.

Monthly information detailing expenditures, revenues, and encumbrance activity is produced. A comparison of budget to actual information is included. Budget transfers from one appropriation account to another are made when needed. The transfer must be approved by formal Legislative resolution if the total of an administrative unit's budget is changed or salary appropriations are impacted, otherwise, the transfer is approved by the Director of the Office of Management and Budget.

Additional information on the County budget controls can be found in Note 1 to the financial statements.

Nonmajor Governmental Funds of the County

The County's nonmajor governmental funds consist of the special revenue funds which include the County Road, County Road Machinery, Library, Arena, Office of Employment and Training and En-Joie Golf Course.

County of Broome Condensed Schedule of Revenues and Expenditures Nonmajor Governmental Funds Year Ended December 31 (In millions)

Total	71.4	100	71.7	100	\$ (0.3)
Increase in net position	\$ 4.2		\$ 7.2		

Net position increased by \$4.2 million.

The internal service funds increased: Fleet Management \$1,006,491, Health Insurance \$3,969,234, and Unemployment Insurance \$7,879. Insurance Reserve decreased by \$(586,815), as well as Workers' Compensation \$(172,659).

Factors Affecting Financial Condition

Local Economy

Broome County's economic development resources provide various financing and tax abatement programs to new, expanding, and relocating businesses as well as a variety of technology related research and development opportunities.

The IDA assists businesses in planning new facilities or the expansion of an existing one. The IDA assists with financing and facilitates Payment In Lieu of Tax (PILOT) agreements with local municipalities. Under a PILOT agreement, municipalities abate a certain percentage of a company's taxes for a specific period.

The IDA owns the Broome Corporate Park, a 600-acre mixed-use business park located in the southern portion of the County. The Park is immediately adjacent to Interstate Route 81 and rail service is available (Canadian/Pacific and Delaware & Hudson).

Several joint initiatives between local industry and Binghamton University's Watson School of Engineering have contributed to the advancement of local industrial development. The Integrated Electronics Engineering Center (IEEC), a New York State Center for Advanced Technology, works in conjunction with Universal Instruments Corporation, IBM Microelectronics and Lockheed Martin to provide leading-edge research in the electronics industry.

The Strategic Partnership for Industrial Resurgence (SPIR) assists small manufacturers in developing new products and defense manufacturers in diversifying their product lines.

Broome County continues to foster a diverse base of high technology, manufacturing, and institutional employers. The local unemployment rate falls near both the federal and state rate.

Broome County has an active Workforce Development program that provides training and education for people in need of skill upgrades to obtain employment, and those who are currently employed and need additional training to enhance their skill level. The Broome-Tioga Workforce Development Program has consolidated many of the services job seekers use to search for employment and develop the skills necessary to re-train for new career opportunities.

On January 1, 2021, Floyd L. Maines Veterans' Memorial Arena officially changed to Visions Veterans' Memorial Arena. The Binghamton Black Bears of the Federal Prospects Hockey League started playing their 2021-2022 season in Broome County, replacing Binghamton Devils American Hockey League. They have won The Commissioner Cup the past two seasons.

During the spring and summer months, the County is also home to the Binghamton Rumble Ponies, an Eastern League professional baseball franchise affiliated with the New York Mets. The Rumble Ponies play at NYSEG Stadium located in the heart of downtown Binghamton.

The Spiedie Fest & Balloon Rally, Broome County Parks Triathlon, Movies in the Park, Broome County 5K Series, Beach Bash, Scarecrow Contest & Display, and Movies in the Park are the special events held during 2024 at the Broome County Parks. Otsiningo Park is the site for over 22 runs/walks for various awareness and local groups in the County. There are over 19 various events/runs/walks hosted by local groups and organizations throughout various Broome County Parks. Wegman's "Passport to Family Wellness" program includes nature trails to five county parks. Free summertime "Broome Bands Together" concerts brought 10 concerts to Otsiningo Park and 2 family movies to some of the other parks in 2024. A variety of fields and courts are available for organized teams and public use.

During 2024, there were 15 tournaments held at the former BAGSAI Complex, now known as the Greenlight Networks Grand Slam Park. This new park features four turf fields to host local softball teams as well as regional and national tournaments. There was a grand opening/ribbon cutting in May 2024. In Spring of 2025 Grand Slam Park was the host site of the Section 4 Sectional Playoffs and the NYSPHSAA Regional and State Finals.

Annual sporting events include the Dick's Sporting Goods Open, a PGA Champion Tour Stop. In addition to golfing, there are also many other exciting events to participate in during the weeklong festivities. There is a Heart and Sole 5K, where all proceeds are donated to American Heart Association. And of course, their concert series. The event is played in July or August at the En-Joie Golf Course in Endicott, New York.

The Binghamton Pond Hockey festival draws hundreds of participants to Chenango Valley State Park each year. The event consists of three weekends of hockey tournaments and community offerings. Proceeds benefit the Mental Health Association of the Southern Tier (MHAST). The event has grown with new features added, including a refrigerated outdoor ice rink to hold the tournament.

LUMA Fest, an international festival of projection arts, completed another great event in 2024. The festival has grown every year and brings tens of thousands of people to downtown Binghamton to witness the dramatic transformation of Binghamton's everyday buildings into works of art. It is expected that the event will return once again in the fall of 2025.

The County has six restored carousels in local parks throughout the area. Donated by local entrepreneurs in the 1920's and 30's, the carousels have been carefully restored to their original grandeur. They are a popular attraction for local and national organizations interested in their preservation and history.

A variety of other cultural centers and attractions exist in Broome County, including several performing arts centers, the country's fifth oldest zoo, a space observatory, and several museums.

Debt Administration and Long-term Financial Planning

Under New York State law, the County's bonded debt issuances are subject to a constitutional tax limit based on 7% of the average full valuation of real property for the last five years. The County's net outstanding indebtedness on December 31, 2024, was 14.4% of its constitutional debt limit. This represents a decrease from the County's outstanding indebtedness of 16.8% at the end of 2023.

In December 2013, the Moody's Rating Report upgraded the County's outstanding general obligation bond rating from an A2- rating to an A2 rating with no outlook. In April 2014, Standard & Poor's upgraded the County's outstanding general obligation bond rating to A+ stable from a previous "A" rating. Both ratings were re-affirmed in January 2019 and April 2017, respectively. In April 2019, Standard & Poor's changed the County's rating from A+ to AA. Additionally, in April 2022, the Moody's Investors Service has assigned a MIG 1 rating to Broome County which reflects the long-term credit of Broome County in the A2 long-term rating.

On April 7, 2025, Moody's Investors Service financial rating for Broome County remained the same at A1. Moody's cited the county's economy, which has maintained a stable population that management hopes will expand quicker because of a recently strong period of housing development. This in combination with moderate commercial growth should prompt and improve economic growth rate that has traditionally lagged the nation.

The County Executive has proposed, and the Legislature has approved future funding of capital projects for maintaining, improving, and modernizing the County's infrastructure as well as the purchase of vehicles and equipment. Work planned to begin in 2025 includes the following projects of \$1.0 million or greater:

- \$ 2.0M Computer Equipment Replacement/Update Technology.
- \$ 4.6M Decker Health Science Renovations Phase V.
- \$ 3.0M Highway Reconstruction/Rehabilitation.
- \$ 4.3M CR20 Maintenance & Rehabilitation.
- \$ 2.0M Highway Equipment Replacement.
- \$ 1.6M Arena Improvements.
- \$14.5M Transit Purchase 7 Battery Electric Buses & Infrastructure.

New capital projects beginning in 2025 total an estimated \$40.6 million. The County anticipates funding \$17.2 million through the issuance of general obligation debt. It is expected that federal, state, and fees/other sources will fund the remaining balance.

Cash Management and Investments

Cash is accounted for based on fund ownership. Most County cash is maintained in a pooled bank account. The County also maintains several other special purpose bank accounts, from which funds are transferred into the pooled account by the Treasury Manager on a regular basis. The bank accounts are interest bearing.

The Treasury Manager uses bank reports daily to monitor cash balances. Idle cash balances are kept at a minimum with any excess funds being invested. Projections of major cash flows are made to determine the investment of funds not immediately required to pay County debts. The Director of the Office of Management and Budget has ultimate responsibility for investing idle funds. County investments include certificates of deposit, money market accounts and treasury bills. Deposits more than FDIC insurance are collateralized by securities purchased in the County's name and held by third party custodians. The custodians adjust the collateral maintained and notify the County of the changes based upon a monthly review. The Office of Management and Budget maintains records verifying collateral balances are sufficient.

	\$	188.6

Additional information on the County's cash management can be found in Note 3 to the financial statements.

Risk Financing

The County is self-insured for general liability and property loss. Commercial insurance is purchased for losses more than \$50,000. Payment of claims is provided by annual appropriations based on claim payment experience and recognition of liability amounts. Other insurance purchased includes Cyber liability with a limit of \$3,000,000 and employee theft and dishonesty coverage with a limit of \$5,000,000 and a retention of \$50,000 per claim.

The County administers a workers' compensation pool. Pool costs are distributed to the fifteen participant municipalities, including the County. Cost allocation is based on the participant's assessed property valuation and claim experience.

The County maintains self-insured health insurance. Health care benefits are financed by County and employee contributions to the plan. The County's contribution, which amounted to approximately \$33.2 million for the year, is determined by rates approved by the County Legislature and based upon advice from plan consultants and the Risk Manager. Rates incorporate experience, fund liabilities and projected reserve levels.

The County participates in a self-insured unemployment insurance plan. The New York State Department of Labor acts as the third-party administrator.

Additional information on the County's risk management activities can be found in Note 10 to the financial statements.

Pension and Other Postemployment Benefits

Substantially all full-time employees of the County are members of the New York State and Local Retirement System (the "System"). The System is a cost-sharing multiple employer public employee retirement plan. The System is non-contributory with respect to employees hired prior to July 27, 1976. Employees hired after July 27, 1976, must contribute 3% of gross annual salary toward the cost of the retirement program until they attain ten years in the retirement system, at such time the employee contribution ceases.

On December 10, 2009, the Governor signed into law a new Tier 5. The law is effective for new ERS employees hired on or after January 1, 2010. New employees will now contribute 3% of their salaries with no provision for these contributions to cease after a certain period of service. In addition, a new Tier 6 group has also been created. Any employee hired after April 1, 2012, will have scaling contribution rates based on annual salary. From April 1, 2012, until March 31, 2013, all Tier 5 employees contributed 3% of their reportable salaries. Starting April 1, 2013, the Tier 6 contribution rate became dependent upon employee's annual wage. More details are available in Note 10 of this financial statement.

In addition, certain employees of SUNY Broome are members of either the New York State Employees Retirement System or the New York State Teachers Retirement System.

Postemployment health benefits are provided to qualifying retired County employees with at least ten years of service, and two years of qualified participation in a health plan or those on disability retirement if hired prior to January 1, 2012. Both the County and the College recognizes and funds such expenditures as incurred. During 2024 expenditures were approximately \$17.5 million for County retirees.

Any employee, former employee or elected official first hired or taking office on or after January 1, 2012, would require a cumulative 20 years of full-time equivalent employment or service and must have been enrolled in the County's health insurance plan for a cumulative minimum of 10 years with 2 of those years of enrollment immediately preceding their retirement. For purposes of determining eligibility any employee, former employee or elected official who was employed or took office prior to January 1, 2012, and is rehired or takes office after a break in employment or service on or after January 1, 2012, shall not be considered as first hired or taking office after January 1, 2012.

Additional information on the County's pension arrangements and postemployment benefits can be found in Notes 8 and 9 to the financial statements.

Acknowledgments

Preparation of the Annual Comprehensive Financial Report and its timely issuance is the result of a concentrated, dedicated, and coordinated effort by the Office of Management and Budget staff and financial staff located throughout the County's departments. The preparation of this report would not be possible without each of their efforts.

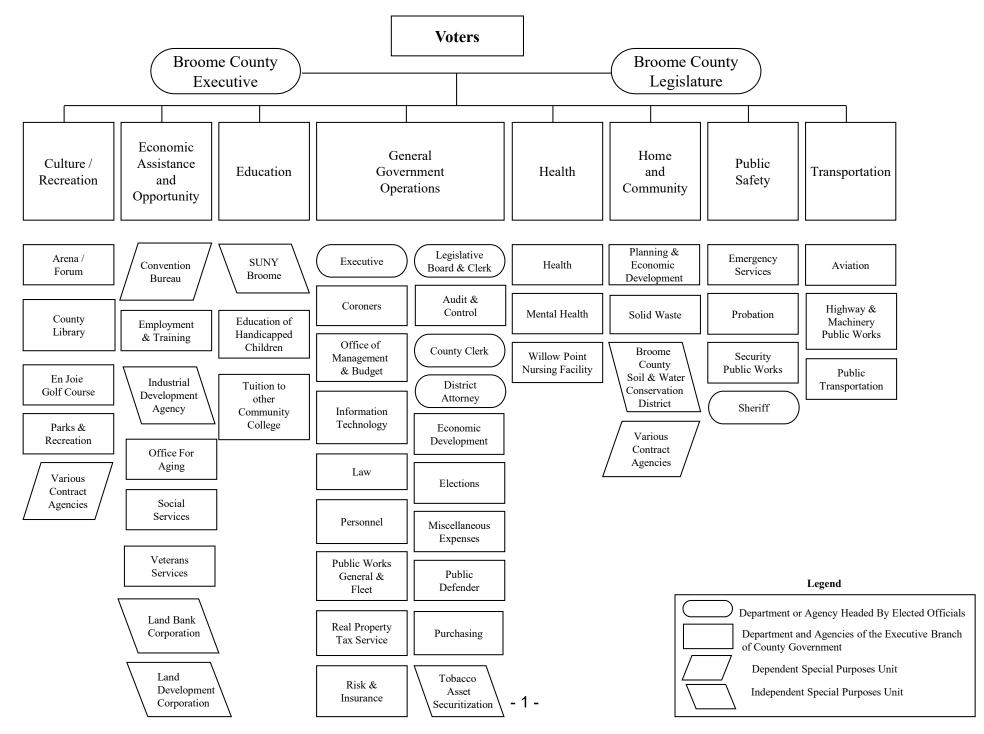

Respectfully submitted,

Jane R. St. Amour

INDEPENDENT AUDITORS' REPORT

Honorable Broome County Executive Honorable Members of the County Legislature County of Broome, New York:

Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component units, each major fund, and the aggregate remaining fund information of the County of Broome, New York (the "County"), as of and for the year ended December 31, 2024 (with Broome Community College (the "College") for the fiscal year ended August 31, 2024), and the related notes to the financial statements, which collectively comprise the County's basic financial statements as listed in the table of contents.

In our opinion, based on our audit and the reports of the other auditors, the accompanying financial statements present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component units, each major fund, and the aggregate remaining fund information of the County, as of December 31, 2024, and the respective changes in financial position and, where applicable, cash flows thereof, for the year then ended in accordance with accounting principles generally accepted in the United States of America.

We did not audit the financial statements of the Broome County Local Development Corporation ("LDC"), which represent 1.1% of the assets, and 3.4% of revenues, respectively, of the business-type activities. We did not audit the financial statements of the College and Broome County Industrial Development Agency ("IDA"), which are shown as discretely presented component units. Those financial statements were audited by other auditors whose reports thereon have been furnished to us, and our opinion, insofar as it relates to the amounts included for the LDC, College, and IDA, is based solely on the reports of such other auditors.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the County and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Emphasis of Matter

As discussed in Note 2 to the financial statements, the December 31, 2023 financial statements have been restated for a change to the financial reporting entity. Our opinion is not modified with respect to these matters.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the County's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit
 procedures that are appropriate in the circumstances, but not for the purpose of expressing an
 opinion on the effectiveness of the County's internal control. Accordingly, no such opinion is
 expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the County's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control—related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis and other Required Supplementary Information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We and the other auditors have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County's basic financial statements. The Supplementary Information, as listed in the table of contents, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The Supplementary Information, as listed in the table of contents, is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Supplementary Information, as listed in the table of contents, is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the County's Annual Comprehensive Financial Report. The other information comprises the Introductory Section and Statistical Section, as listed in the table of contents, but does not include the financial statements and our auditors' report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon. In connection with our audit of the financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Drescher + Malechi W July 10, 2025

COUNTY OF BROOME, NEW YORK Management's Discussion and Analysis Year Ended December 31, 2024

As management of the County of Broome, New York (the "County"), we offer readers of the County's financial statements this narrative overview and analysis of the County's financial activities for the fiscal year ended December 31, 2024. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in the County's financial statements and notes to the financial statements, which follow this narrative. For comparative purposes, certain items from the prior year have been reclassified to conform with the current year presentation.

Financial Highlights

- The assets and deferred outflows of resources of the County's primary government exceeded its liabilities and deferred inflows of resources at December 31, 2024 by \$28,143,790. This consists of \$157,427,374 net investment in capital assets, \$25,490,177 restricted for specific purposes, offset by an unrestricted net position of \$(154,773,761).
- The County's primary government net position increased \$62,911,026 during the year ended December 31, 2024. Governmental activities increased the County's net position by \$15,690,653, while the net position of business-type activities increased by \$47,220,373.
- As of December 31, 2024, the County's governmental funds reported combined ending fund balances of \$60,504,214, a decrease of \$23,967,011 in comparison with the prior year. This decrease was primarily due to a significant increase in expenditures related to economic assistance and opportunity during the fiscal year.
- At the end of the current fiscal year, *unassigned fund balance* for the General Fund was \$32,360,521, or 7.1 percent of total General Fund expenditures and transfers out. This total amount is available for spending at the County's discretion and constitutes approximately 39.4 percent of the General Fund's total fund balance of \$82,185,141 at December 31, 2024.
- The County's governmental and business-type activities' serial bonds decreased by \$6,509,003 and \$2,533,500, respectively during the current year as a result of scheduled serial bond principal payments.

Overview of the Financial Statements

The discussion and analysis provided here are intended to serve as an introduction to the County's basic financial statements. The County's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements—The *government-wide financial statements* are designed to provide readers with a broad overview of the County's finances, in a manner similar to a private-sector business.

The *statement of net position* presents information on all of the County's assets, liabilities, and deferred inflows/outflows of resources, with the difference reported as *net position*. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the County is improving or deteriorating.

The *statement of activities* presents information showing how the County's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash flows*. Thus, revenues and expenses are reported for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the County that are primarily supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all, or a significant portion, of their costs through user fees and charges (*business-type activities*). The governmental activities of the County include general government support, education, public safety, health, transportation, economic assistance and opportunity, culture and recreation, and home and community services. The business-type activities of the County include Public Transportation, Willow Point Nursing Home, Solid Waste Management, Aviation and two blended component units, the Broome County Local Development Corporation ("LDC") and the Broome County Land Bank ("LBC").

The government-wide financial statements include not only the County and its blended component units (known as the *primary government*), but also Broome Community College (the "College"), the Broome County Soil and Water Conservation District (the "District") the Broome County Industrial Development Agency (the "IDA") discretely presented component units, for which the County is financially accountable. Financial information for the component units is reported separately from the financial information presented for the primary government itself.

The government-wide financial statements can be found on pages 19-20 of this report.

Fund financial statements—A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The County, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the County can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental funds—Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental funds' balance sheet and the governmental funds' statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The County maintains ten individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund, the Capital Projects Fund, the Debt Service Fund and the Broome Tobacco Asset Securitization Corporation ("BTASC"), which are presented as major funds. Data from the other six governmental funds, which include the County Road Fund, Road Machinery Fund, Library Fund, Arena Fund, Employment and Training Fund, and the En Joie Golf Course Fund, are combined into a single, aggregated presentation.

The basic governmental fund financial statements can be found on pages 21-24 of this report.

Proprietary funds—The County maintains two different types of proprietary funds. *Enterprise funds* are used to report the same functions presented as *business-type activities* in the government-wide financial statements. The County uses enterprise funds to account for its Transportation, Nursing Home, Solid Waste and Airport operations. Additionally, the LDC and LBD, two blended component units, are reported as nonmajor enterprise funds. *Internal service funds* are an accounting device used to accumulate and allocate costs internally among the County's various functions. The County uses internal service funds to account for the operation of its fleet management, as well as the self-insurance workers' compensation program, health insurance, insurance reserve and unemployement insurance. Because these services predominantly benefit governmental rather than business-type functions, they have been included within governmental activities in the government-wide financial statements.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for easch enterprise funds disclosed above. In addition, the internal service funds are aggregated and presented in the proprietary fund financial statements.

The basic proprietary fund financial statements can be found on pages 25-27 of this report.

Fiduciary funds—Fiduciary funds are used to account for resources held for the benefit of parties outside the County. Fiduciary funds are *not* reflected in the government-wide financial statements because the resources are not available to support the County's own programs. The County is responsible for ensuring that the assets reported in these funds are used for their intended purpose. The County maintains one fiduciary fund, the Custodial Fund.

The fiduciary fund financial statements can be found on pages 28-29 of this report.

Notes to the financial statements—The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 30-82 of this report.

Other information—In addition to the basic financial statements and accompanying notes, this report also presents *required supplementary information* concerning the County's net pension liabilities/(assets), changes in the County's total other postemployment benefits ("OPEB") obligation, and the County's budgetary comparison for the General Fund. Required Supplementary Information and the related notes to the Required Supplementary Information can be found on pages 83-91 of this report.

The combining statements referred to earlier in connection with nonmajor governmental funds and internal service funds are presented as other supplementary information immediately following the Required Supplementary Information in the Supplementary Information section of this report on pages 92-96.

Finally, the Statistical Section can be found on pages 97-129 of this report.

Government-wide Financial Analysis

As noted earlier, net position over time may serve as a useful indicator of a government's financial position. In the case of the County's primary government, assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$28,143,790 at the close of the most recent fiscal year, as compared to a net position of \$(34,767,236) at the close of the fiscal year ended December 31, 2023.

Table 1—Condensed Statements of Net Position—Primary Government

	Governmental Activities				Business-typ	e Activities	Total Primary Government			
	December 31,			31,	Decem	December 31,				
		2024		2023	2024	2023	2024		2023

Current liabilities		161,382,645		130,863,190	73,843,323	30,754,563	235,225,968		161,617,753	
Noncurrent liabilities Total liabilities	_	328,045,072 489,427,717	_	340,078,810 470,942,000	71,664,930 145,508,253	74,438,693	399,710,002 634,935,970	_	414,517,503 576,135,256	
Deferred inflows of resources		113,734,011		112,959,574	22,433,534	24,680,869	136,167,545		137,640,443	
Net position:										
Net investment in capital assets		37,590,672		23,438,029	119,836,702	92,375,995	157,427,374		115,814,024	
Restricted		25,490,177		23,625,160	-	-	25,490,177		23,625,160	
Unrestricted		(159,032,991)		(158,705,984)	4,259,230	(15,500,436)	(154,773,761)		(174,206,420)	
Total net position	\$	(95,952,142)	\$	(111,642,795)	\$ 124,095,932	\$ 76,875,559	\$ 28,143,790	\$	(34,767,236)	

The largest positive portion of the County's primary government net position, \$157,427,374, reflects its net investment in capital assets (such as land, buildings, machinery, equipment, and infrastructure), net of accumulated depreciation/amortization, less any related outstanding debt that was used to acquire these assets. The County uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the County's investment in capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of net position, \$25,490,177, represents resources that are subject to external restrictions imposed by creditors, grantors, contributors, or laws and regulations of other governments and restrictions imposed by law through constitutional provisions or enabling legislation.

The remaining balance of the County's net position, \$(154,773,761), is considered to be an unrestricted deficit. This deficit does not mean that the County does not have resources available to meet its obligations in the ensuing year. Rather, it reflects liabilities not related to the County's capital assets and are not expected to be repaid from current resources. These long-term liabilities including compensated absences, other postemployment benefits ("OPEB") obligations, and claims payable are funded annually within the funds.

Table 2, as presented below, shows the changes in net position for the years ended December 31, 2024 and December 31, 2023.

Table 2—Condensed Statement of Changes in Net Position—Primary Government

	Government	al Activities	Business-type	e Activities	Total Primary Government				
	Year Ended D	December 31,	Year Ended D	ecember 31,	Year Ended December 31,				
	2024	2023	2024	2023	2024	2023			
Revenues:			-						
Program revenues	\$ 184,122,737	\$ 183,370,351	\$ 106,928,191	\$ 75,111,670	\$ 291,050,928	\$ 258,482,021			
General revenues	277,886,950	274,269,206	12,343,486	10,782,125	290,230,436	285,051,331			
Total revenues	462,009,687	457,639,557	119,271,677	85,893,795	581,281,364	543,533,352			
Total expenses	442,084,334	418,323,042	76,286,004	71,228,427	518,370,338	489,551,469			
Transfers	(4,234,700)	(4,495,354)	4,234,700	4,495,354		-			
Change in net position	15,690,653	34,821,161	47,220,373	19,160,722	62,911,026	53,981,883			
Net position—beginning	(111,642,795)	(146,463,956)	76,875,559	57,714,837	(34,767,236)	(88,749,119)			
Net position—ending	\$ (95,952,142)	\$ (111,642,795)	\$ 124,095,932	\$ 76,875,559	\$ 28,143,790	\$ (34,767,236)			

Governmental activities—Governmental activities increased the County's net position by \$15,690,653, primarily due to an increase in sales tax revenue and increases in interest earnings.

A summary of sources of revenues for governmental activities for the years ended December 31, 2024 and 2023 is presented below.

Table 3—Summary of Sources of Revenues—Governmental Activities

	 Year Ended D	December 31,	 Increase/(D	Decrease)
	 2024	2023	 Dollars	Percent (%)
Charges for services	\$ 40,059,631	\$ 37,900,042	\$ 2,159,589	5.7
Operating grants and contributions	131,862,915	137,524,112	(5,661,197)	(4.1)
Capital grants and contributions	12,200,191	7,946,197	4,253,994	53.5
Property taxes and tax items	80,184,531	77,154,611	3,029,920	3.9
Non-property taxes	186,786,736	182,519,118	4,267,618	2.3
Tobacco settlement revenues	2,599,105	2,754,062	(154,957)	(5.6)
Other	 8,316,578	11,841,415	 (3,524,837)	(29.8)
Total revenues	\$ 462,009,687	\$ 457,639,557	\$ 4,370,130	1.0

The most significant source of revenues is non-property taxes, which accounts for \$186,786,736, or 40.4 percent of total governmental activities revenues for the year ended December 31, 2024, and \$182,519,118, or 39.9 percent of total governmental activities revenues for the year ended December 31, 2023. The next largest source of revenues is operating grants and contributions, which comprises \$131,862,915, or 28.5 percent, and \$137,524,112, or 30.1 percent of total governmental activities revenues for the years ended December 31, 2024 and 2023, respectively. The third largest source of revenues is property taxes and tax items, which comprises \$80,184,531, or 17.4 percent, and \$77,154,611, or 16.9 percent of total governmental activities revenues for the years ended December 31, 2024 and 2023, respectively.

During the year ended December 31, 2024, total revenues increased by \$4,370,130. Property taxes and tax items accounted for a increase of \$3,029,920, capital grants and contributions accounted for an increase of \$4,253,994, and non-property taxes accounted for an increase of \$4,267,618, resulting primarily from a significant increase in sales tax revenue. Operating grants and contributions decreased by \$5,661,197 due to the phasing out of certain COVID-era federal programs.

A summary of program expenses of governmental activities for the years ended December 31, 2024 and 2023 is presented below in Table 4.

Table 4—Summary of Program Expenses—Governmental Activities

	Year Ended	December 31,	Increase/(D	Decrease)
	2024	2023	Dollars	Percent (%)
General government support	\$ 121,134,481	\$ 104,314,249	\$ 16,820,232	16.1
Education	17,894,430	16,374,619	1,519,811	9.3
Public safety	73,379,520	70,849,143	2,530,377	3.6
Health	29,191,733	30,706,836	(1,515,103)	(4.9)
Transportation	15,859,571	19,402,848	(3,543,277)	(18.3)
Economic assistance and opportunity	162,347,323	154,225,557	8,121,766	5.3
Culture and recreation	12,783,470	12,889,169	(105,699)	(0.8)
Home and community services	3,016,816	3,971,733	(954,917)	(24.0)
Interest and other fiscal charges	6,476,990	5,588,888	888,102	15.9
Total program expenses	\$ 442,084,334	\$ 418,323,042	\$ 23,761,292	5.7

The County's most significant expense items for governmental activities were economic assistance and opportunity of \$162,347,323, or 36.7 percent of total governmental activities expenses, general government support of \$121,134,481, or 27.4 percent of total governmental activities expenses, and public safety of \$73,379,520, or 16.6 percent of total governmental activities expenses for the year ended December 31, 2024. Similarly, for the year ended December 31, 2023 the most significant expense items were economic assistance and opportunity of \$154,225,557, or 36.9 percent of total governmental activities expenses, general government support of \$104,314,249, or 24.9 percent of total governmental activities expenses, and public safety of \$70,849,143, or 16.9 percent of total governmental activities expenses for the year ended December 31, 2023.

During the year ended December 31, 2024, expenses increased across all functions (except health, transportation, culture and recreation, and home and community services), mainly due to increased employee benefits related to various long term liabilities, increased wages and sales tax distribution related to general government support, along with an increase in in expenditures related to economic assistance and opportunity.

Business-type activities—Business-type activities increased the County's net position by \$47,220,373. The County's Transportation, Nursing Home, Solid Waste Management, Aviation, Local Development Corporation and Land Bank operations increased the business-type activities net position by \$3,750,149, \$6,617,191, \$3,054,927, \$32,357,268, \$142,462 and \$1,298,376. For the year ended December 31, 2024, operating revenues increased 0.9 percent and operating expenses increased 6.6 percent. In addition, the Aviation Fund had \$35,846,592 of nonoperating revenues primarily due to state aid related to terminal improvements and upgrades.

A summary of operating revenues and operating expenses for the County's business-type activities for the years ended December 31, 2024 and 2023 is presented on the following page.

Table 5—Summary of Operating Revenues and Expenses—Business-type Activities

		Year Ended I)ece	ember 31,	Increase/(Decrease)			
	2024			2023		Dollar	Percent (%)	
Operating revenues:								
Charges for services	\$	54,628,740	\$	54,781,261	\$	(152,521)	(0.3)	
Other revenue		1,818,088		1,156,366		661,722	57.2	
Total operating revenues	\$	56,446,828	\$	55,937,627	\$	509,201	0.9	
Operating expenses:								
Personal services and employee benefits	\$	23,547,565	\$	18,260,492	\$	5,287,073	29.0	
Depreciation		11,350,982		11,470,389		(119,407)	(1.0)	
Contracted services		40,167,856		40,668,858		(501,002)	(1.2)	
Total operating expenses	\$	75,066,403	\$	70,399,739	\$	4,666,664	6.6	

The most significant operating expense items for the year ended December 31, 2024 were contracted services, which accounted for \$40,167,856, or 53.5 percent of total expenses, and Personal services and employee benefits of \$23,547,565, or 31.4 percent of total expenses. Similarly, for the year ended December 31, 2023 the most significant expense items were contracted services, which accounted for \$40,668,858, or 57.8 percent of total expenses, and Personal services and employee benefits of \$18,260,492, or 25.9 percent of total expenses.

Financial Analysis of the Governmental Funds

As noted earlier, the County uses fund accounting to ensure and demonstrate compliance with finance related legal requirements.

Governmental funds—The focus of the County's governmental funds is to provide information on near-term inflows, outflows and balances of spendable resources. Such information is useful in assessing the County's financing requirements. In particular, unassigned fund balance and fund balance assigned to specific use in special revenue funds may serve as a useful measure of a government's net resources available for discretionary use, as they represent the portion of fund balance which has not yet been limited to use for a particular purpose by either an external party, the County itself, or a group or individual that has been delegated authority to assign resources for particular purposes by the County Legislature.

At December 31, 2024, the County's governmental funds reported combined ending fund balances of \$60,504,214, a decrease of \$23,967,011 in comparison with the prior year. The County had *unassigned fund balance* totaling \$946,895, which is available for spending at the County's discretion. The remainder of fund balance is either *nonspendable, restricted*, or *assigned* to indicate that it is: (1) not in spendable form, \$4,829,907; (2) restricted for particular purposes, \$18,510,769; or (3) assigned for particular purposes, \$36,216,643.

The General Fund is the chief operating fund of the County. At the end of the current fiscal year, unassigned fund balance of the General Fund was \$32,360,521, while total fund balance decreased to \$82,185,141. The General Fund fund balance decreased \$19,332,984 from the prior year primarily due to a significant increase in expenditures related to economic assistance and opportunity programs, along with significant transfers to the Capital Projects Fund. As a measure of the General Fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total expenditures and transfers out. Unassigned fund balance represents 7.1 percent of General Fund expenditures and transfers out, while total fund balance represents 18.1 percent of that same amount.

The fund balance in the Capital Projects Fund decreased \$5,696,362 from the prior year, resulting in ending fund balance of \$(30,668,988) as of December 31, 2024. The decrease in the Capital Projects Fund is primarily due to capital outlay exceeding total revenue.

The fund balance in the Debt Service Fund increased \$503,630 from the prior year, resulting in ending fund balance of \$1,457,501 as of December 31, 2024. The increase was due to debt premiums during the year ended December 31, 2024.

At December 31, 2024, the BTASC Fund reported restricted fund balance of \$3,130,365 to be used for upcoming payments of principal and interest. Total fund balance increased \$11,248 during the year ended December 31, 2024.

Proprietary funds—The County's proprietary funds provide the same type of information found in business-type activities of the governmental-wide financial statements, but in more detail.

Net position of the Public Transportation Fund at December 31, 2024 totaled \$22,051,617, which included \$22,868,904 net investment in capital assets and an unrestricted net position of \$(817,287). The Public Transportation Fund net position increased \$3,750,149 during the year ended December 31, 2024 primarily as a result of significant state and federal aid.

Net position of the Willow Point Nursing Home at December 31, 2024 totaled \$(19,178,667), which included \$1,953,879 net investment in capital assets and an unrestricted net position of \$(21,132,546). The Willow Point Nursing Home net position increased \$6,617,191 during the year ended December 31, 2024 primarily as a result of increased other nonoperating revenues from intergovernmental transfers.

Net position of the Solid Waste Management Fund at December 31, 2024 totaled \$40,318,447, which included \$26,146,902 net investment in capital assets and unrestricted net position of \$14,171,545. The Solid Waste Management Fund net position increased \$3,054,927 as a result of an increase in interest earnings and debt premiums.

Net position of the Aviation Fund at December 31, 2024 totaled \$77,127,196, which included \$68,867,017 net investment in capital assets and unrestricted net position of \$8,260,179. The Aviation Fund net position increased \$32,357,268 as a result of significant state and federal aid received for airport terminal improvements and upgrades.

General Fund Budgetary Highlights

The County's General Fund budget generally contains budget amendments during the year. The budget is allowed to be amended upward (increased) for prior year's encumbrances since the funds were allocated under the previous year's budget, and the County has appropriately assigned an equal amount of fund balance at year-end for this purpose. Furthermore, the budget is allowed to be amended upward (increased) for additional current year appropriations supported by an increase in budgeted revenues. A budgetary comparison schedule within the required supplementary information section of this report has been provided to demonstrate compliance with their budget.

A summary of the General Fund results of operations for the year ended December 31, 2024 is presented in Table 6 below.

Table 6—Summary of General Fund Results of Operations

	Budgeted	Amounts	Actual	Variance with
	Original	Final	Amounts	Final Budget
Revenues and other financing sources Expenditures and other financing uses	\$ 298,120,610 309,824,896	\$ 299,965,630 321,990,901	\$ 435,720,240 455,053,224	\$ 135,754,610 (133,062,323)
Excess (deficiency) of revenues and other financing sources over expenditures and				
other financing uses	<u>\$ (11,704,286)</u>	<u>\$ (22,025,271)</u>	<u>\$ (19,332,984)</u>	\$ 2,692,287

Original budget compared to final budget—During the year the budget is modified, primarily to reflect the acceptance of new state and federal grants. These grants explain the majority of increases in revenues and expenditures from the original adopted budget to the final budget.

Final budget compared to actual results—The General Fund expenditures had an unfavorable variance from the final budgetary appropriations of \$133,062,323. The primary variances were noted within the general government support, economic assistance and opportunity and health due to the uncertainty of particular grants being awarded. Additionally, actual revenues and transfers in exceeded final budget by \$135,754,610 due to more sales tax, along with state and federal revenues than originally anticipated.

Capital Assets and Debt Administration

Capital assets—The County's investment in capital assets for its governmental activities and business-type activities as of December 31, 2024 amounted to \$143,291,571 and \$184,646,661, respectively (net of accumulated depreciation/amortization). This investment in capital assets includes land, construction in progress, buildings and building improvements, other improvements, machinery and equipment, right-to-use lease assets and subscription assets. All depreciable capital assets were depreciated from acquisition date to the end of the current year as outlined in the County's capital asset policy.

Capital assets, net of depreciation/amortization, for the governmental activities and business-type activities at the years ended December 31, 2024 and 2023 are presented in Table 7 below.

Table 7—Summary of Capital Assets (Net of Depreciation/Amortization)

	Governmental Activities				Business-type Activities					Total Primary Government			
		2024		2023		2024		2023		2024		2023	
Land	\$	8,468,146	\$	8,468,146	\$	3,223,960	\$	3,223,960	\$	11,692,106	\$	11,692,106	
Construction in progress		34,295,864		18,562,164		83,249,350		28,537,880		117,545,214		47,100,044	
Buildings and improvements		12,304,126		14,631,950		12,765,483		13,184,167		25,069,609		27,816,117	
Improvements other than buildings		48,308,372		47,208,825		64,750,888		70,566,212		113,059,260		117,775,037	
Machinery and equipment		24,677,087		24,186,371		20,656,980		16,975,469		45,334,067		41,161,840	
Right-to-use leased assets		13,766,831		15,688,540		-		46,328		13,766,831		15,734,868	
SBITA assets		1,471,145		2,327,972	_					1,471,145		2,327,972	
Total	\$	143,291,571	\$	131,073,968	\$	184,646,661	\$	132,534,016	\$	327,938,232	\$	263,607,984	

The County's infrastructure assets are recorded at historical cost in the government-wide and proprietary fund financial statements. Additional information on County's capital assets can be found in Note 6 to the basic financial statements.

Long-term liabilities—At December 31, 2024, the County had bonded debt outstanding, excluding BTASC debt, of \$48,196,225 and \$18,078,775 for governmental and business-type activities, respectively, as compared to \$54,705,228 and \$20,612,275 at December 31, 2023. The County made scheduled principal payments of \$6,509,003 and \$2,533,500 for governmental and business-type activities, respectively, during the current year.

A summary of long-term liabilities for the governmental activities as of the years ended December 31, 2024 and 2023 are presented below in Table 8:

Table 8—Summary of Long-Term Liabilities

	Governmental Activities			Activities	Business-tyj	pe Activities	Total Primary Government				
		Decem	ber	31,	Decem	ber 31,	December 31,				
		2024		2023	2024	2023	2024			2023

Additional information on the County's long-term liabilities can be found in Note 13 to the financial statements.

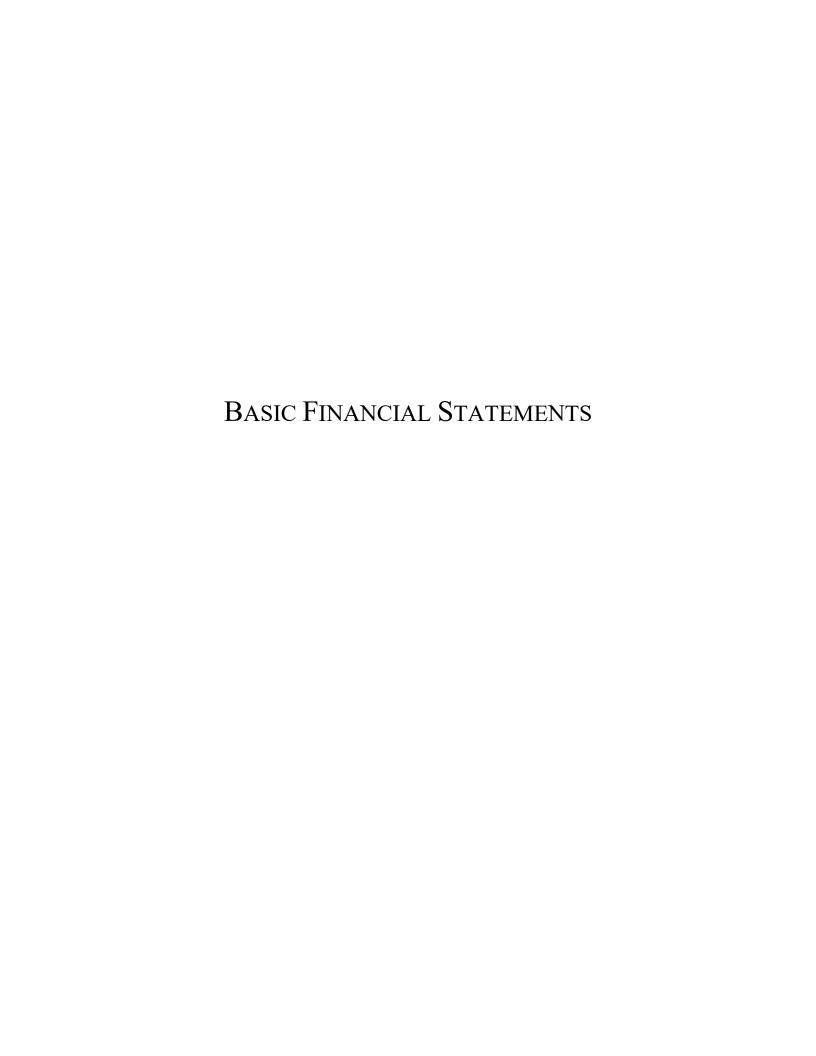

Economic Factors and Next Year's Budgets and Rates

The unemployment rate, not seasonally adjusted, for the County's region during December 2024 was 3.9 percent. This compares to the New York State and national unemployment rate of 4.6 and 3.8 percent, respectively. These factors are considered in preparing the County's budget.

The County considered current year operational expenses and estimated increases based on economic factors when establishing the fiscal year 2025 budget. The County's 2025 budget includes the appropriation of \$8,794,559 of fund balance in the General Fund.

Requests for Information

This financial report is designed to provide our citizens, taxpayers, customers, investors and creditors with a general overview of the County's finances and to demonstrate the County's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the Office of Management and Budget, 60 Hawley Street, Binghamton, New York 13902.

COUNTY OF BROOME, NEW YORK

Reconciliation of the Balance Sheet—Governmental Funds to the Government-wide Statement of Net Position December 31, 2024

amounts reported for governmental activities in the statement of net position (page 19) are different because	use:	
otal fund balances (deficit)—governmental funds (page 21)	\$	60,504,214
Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the fund statements. The cost of the assets is \$466,390,029 and the accumulated depreciation/amortization is \$323,098,458.		143,291,571
Uncollected property taxes are not available to pay for current period expenditures and, therefore, are reported as deferred inflows of resources in the fund statements.		9,512,654
A long term asset, due from New York State to BTASC, is not available to pay for current period expenditures and, therefore, is not reported in the fund statements.		2,599,105
Deferred charges and gains associated with refunding bond issuances are not reported in the governmental funds. The charges and gains are reported as deferred outflows and inflows of resources on the statement of net position and are recognized as a component of interest expense and revenue over the life of the related debt.		
Deferred gain on refunding		(8,745,560)
Deferred outflows and inflows of resources related to pensions are applicable to future periods		
and, therefore, are not reported in the fund statements: Deferred outflows related to employer contributions \$ 9,786,635		
Deferred outflows related to experience, changes in assumptions, proportions, and investment earnings 30,579,220 Deferred inflows related to pension plans (26,775,503)		13,590,352
Deferred outflows and inflows of resources related to other postemployment benefits obligation ("OPEB") are applicable to future periods and, therefore, are not reported in the fund statements: Deferred outflows relating to experience and changes in assumptions \$42,785,357 Deferred inflows relating to OPEB (78,185,455)		(35,400,098)
Internal service funds are used by management to charge the costs of health insurance and workers' compensation to individual funds. The net position of the internal service funds (\$37,889,402) are included in the governmental activities in the statement of net position net of capital assets of \$807,344, deferred inflows/outflows of resources of \$(157,046) and long-term liabilities of \$(899,708).		38,138,812
Net accrued interest expense for serial bonds, BANs and leases is not reported in the fund statements.		(2,351,763)
Long-term liabilities are not due and payable in the current period and, therefore, are not		()= =): ==)
reported in the fund statements. The effects of these items are: Serial bonds—County BTASC bonds and accreted interest Unamortized bond premiums—BTASC Early retirement incentive costs Compensated absences (149,087) Compensated absences (9,905,234) Lease liability (14,993,782) SBITA liability (723,949) Installment purchase debt (9,050,158) OPEB obligation (142,451,729)		
Net pension liability (42,656,880)		(317,091,429)

COUNTY OF BROOME, NEW YORK

Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances (Deficit)—Governmental Funds to the Government-wide Statement of Activities Year Ended December 31, 2024

1 car Ended December 31, 2024	
Amounts reported for governmental activities in the statement of activities (page 20) are different because:	
Net change in fund balances (deficit)—total governmental funds (page 23)	\$ (23,967,011)
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of these assets is allocated over their estimated useful lives and reported as depreciation/amortization expense. This is the amount by which capital outlays exceeded depreciation/amortization expense in the current period.	
Capital asset additions \$ 30,330,240 Depreciation/amortization expense (17,607,434) Loss on disposal of assets (505,203)	12,217,603
Property tax revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the fund statements.	3,316,905
Certain revenues are not recognized in the governmental funds because they are not available soon enough after year-end to pay for the current period's expenditures. On the statement of activities, however, revenue is recognized regardless of when it's collected.	(250,763)
Deferred gains associated with refunding of bonds are not reported in the governmental funds. The charges and gains are reported as deferred outflows and inflows of resources on the statement of net position and are recognized as a component of interest expense over the life of the related debt.	331,062
Net differences between pension contributions recognized on the fund financial statements and the government-wide financial statements are as follows: County pension contributions \$ 12,478,093	(4.505.00.1)
Cost of benefits earned net of employee contributions (17,173,297) Deferred outflows and inflows of resources relating to OPEB result from actuarial changes in experience and changes in assumptions and other inputs. These amounts are shown net of current	(4,695,204)
year amortization.	32,937,565
Internal service funds are used by management to charge the costs of managing health insurance and workers' compensation to individual funds. The net expense of certain activities of internal service funds is reported within the governmental activities. The change in net position of the internal service funds (\$4,355,038) is included in the governmental activities in the statement of net position, net of changes in deferred inflows/outflows of resources related to OPEB of \$207,043, and long-term liabilities of \$351,826.	3,665,261
In the statement of activities, interest expense is recognized as it accrues, regardless of when it is paid.	(633,568)
The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums, discounts and similiar items when debt is first issued, whereas these amount are deferred and amortized in the statement of activities. Additionally, in the statement of activities, certain operating expenses are measured by the amounts earned during the year. In the governmental funds, however, expenditures for these items are measured by the amount of financial resources used (essentially, the amounts actually paid). The net effect of these differences in the treatment of long-term debt and the related items is as follows:	(655,650)
Repayment of serial bonds—County Repayment of BTASC bonds Repayment of BTASC bonds Amortization of premiums—BTASC BTASC subordinate turbo CABs accretion Change in early retirement incentive costs Change in compensated absences Repayment of lease liability Repayment of SBITA liability Repayment of SBITA liability Repayment on installment purchase debt Change in OPEB obligation \$ 6,509,003 985,000 985,000 158,827 90,624 (170,898) 1,710,635 1,7	(7,231,197)

The notes to the financial statements are an integral part of this statement.

Change in net position of governmental activities

Net position—ending	\$ 3,441,809

COUNTY OF BROOME, NEW YORK

Notes to the Financial Statements Year Ended December 31, 2024

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The basic financial statements of the County of Broome, New York (the "County") have been prepared in conformity with accounting principles generally accepted in the United States of America as applied to governmental units. The Governmental Accounting Standards Board ("GASB") is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The more significant of the County's accounting principles are described below.

Description of Government-wide Financial Statements

The government-wide financial statements (i.e. statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government and its component units. All fiduciary activities are reported only in the fund financial statements. *Governmental activities*, which normally are supported by taxes, intergovernmental revenues, and other nonexchange transactions, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges to external customers for support. Likewise, the *primary government* is reported separately from certain legally separate *component units* for which the primary government is financially accountable.

Reporting Entity

The County is a municipal entity which performs local governmental functions within its jurisdiction, including public safety, transportation, health and economic assistance and opportunity. The County was incorporated in 1806, and is governed by the Charter of the County, the County Law, and other general laws of the State of New York. The County Legislature is the legislative body responsible for the overall operation of the County. The County Executive serves as the Chief Executive Officer and the Director of the Office of Management and Budget serves as the Chief Fiscal Officer. The County is a municipal corporation established in New York State.

The County's financial statements include those entities for which the County has clear oversight responsibility. This responsibility is determined through a review of such factors as the selecting of governing boards, financial interdependency and the ability to influence management and operations on a continuing basis. The accompanying financial statements present the government and its component units, entities for which the government is considered to be financially accountable. Blended component units are, in substance, part of the primary government's operations, even though they are legally separate entities. Thus, blended component units are appropriately presented as funds of the primary government. Discretely presented component units are reported in separate columns in the government-wide financial statements to emphasize that they are legally separate from the government.

Discretely Presented Component Units—The component unit columns in the government-wide financial statements include the financial data of the County's discretely presented component units. These units are reported in a separate column to emphasize that they are legally separate from the County.

Broome Community College—Broome Community College (the "College") was established under Article 126 of the Education Act of the State of New York under the sponsorship of the County and is operated by a Board of Trustees under Paragraph I of Subdivision 6 of Section 6304 of the Education Act of the State of New York. The College's fiscal year end is August 31. The Faculty Student Association, Inc. (the "FSA") is organized under the not-for-profit laws of New York State to supplement and conduct activities and services for the students, faculty, staff and alumni of the College. The FSA is presented as a component unit of the College, and its fiscal year end is June 30. The Broome Community College Foundation, Inc. (the "Foundation") is organized under the not-forprofit laws of New York State to raise funds to provide scholarships and to provide support for initiatives that will have a significant and measurable impact on the students, faculty and staff of the College. The Foundation is a component unit of the College and its fiscal year end is August 31. The Broome Community College Housing Development Corporation (the "Corporation") is a legally separate, non-profit organization that provides and manages student housing and provides other financial support for the benefit of the College. The Corporation has elected to present its financial statements in accordance with Financial Accounting Standards Board Accounting Standards Update (ASU) 2016-14. ASU 2016-14 was issued to improve net asset classification requirements and the information presented in financial statements and notes about a not-for-profit entity's liquidity, financial performance, and cash flows.

Pursuant to New York State Education Law relating to community colleges, title to real property is held by the County in trust for the use of the College in carrying out its institutional purposes. The accompanying debt is also a legal obligation of the County. No revenues or assets of the College have been pledged or will be available to pay the principal and interest on this debt. Principal and interest payments on the debt are payable from amounts appropriated each year by the State of New York pursuant to the State Education Law, and the County in the case of County-related debt through the College's budget, and from monies in the debt service reserve fund held by the DASNY trustees. Capital appropriations include the annual debt service requirements on the Broome County debt. The provisions of the State Education Law regarding the State appropriations for principal and interest payments do not constitute a legally enforceable obligations of the State.

Equipment made available to the College from its inception are stated at cost and were purchased from appropriations of the County and New York State, designated for that purpose, and from Federal grants.

Broome County Soil and Water Conservation District—The Broome County Soil and Water Conservation District (the "District") as created by County resolution number 115 of 1944 pursuant to the Broome County Charter and the New York State Municipal Home Rule Law including section 10, paragraph 1 B, sub-paragraph (8). The District provides technical assistance relative to natural resource conservation and water quality to the residents of the County. The assistance, available on an individual basis, includes soil information, drainage, water resources, critical area seeding, tree planting for reforestation, fish stocking, and pond/lake management and protection. The District provides soil classifications data to landowners applying for agricultural exemptions on their property assessments and provides best management practices to farm land operators to reduce soil loss through erosion and to protect water quality within the watersheds in the County. While the District operates autonomously, it is included in the County's reporting entity as a discretely presented component unit because the County appoints all members of the Board of Directors and annually appropriates significant financial support for the District.

Broome County Industrial Development Agency—The Broome County Industrial Development Agency (the "IDA") is a Public Benefit Corporation created by State legislation to promote the economic welfare, recreation opportunities and prosperity of the County's inhabitants. While the IDA operates autonomously, it is included in the County's reporting entity as a discretely presented

component unit because the County appoints all members of the Board of Directors and can impose its will on the IDA.

The IDA was established to aid the County in promoting the economic welfare of its inhabitants, through the assistance in constructing, maintaining and equipping industrial, commercial, manufacturing and research facilities, and to develop economically sound commerce and industry through the sale of industrial revenue bonds.

Blended Component Units—The following blended component units are legally separate entities from the County, but are, in substance, part of the County's operations and therefore data from these units is combined with data of the primary government.

Broome Tobacco Asset Securitization Corporation—The Broome Tobacco Asset Securitization Corporation ("BTASC") is a special purpose, bankrupty remote, local development corporation organized in 2001 under Section 1411 of the Not-For-Profit Corporation Law of the State of New York, created by Broome County for the purposes of: (i) purchasing from the County all rights, title and interest in certain litigation awards under the Consent Decree and Final Judgment of the Supreme Court of the State of New York dated December 23, 1998 and in all portions due to the County under the Master Settlement Agreement with respect to tobacco related litigation among various settling states and participating manufacturers, (ii) to purchase, acquire, own, hold, sell, dispose of tobacco assets and any future rights of tobacco assets, and (iii) to issue and sell bonds to pay for the acquisition of such tobacco assets. BTASC is included in the County's reporting entity because three of its four directors are officials of the County, and the County can impose its will on BTASC. The outstanding debt of BTASC is not an obligation of the County.

Broome County Local Development Corporation—The Broome County Local Development Corporation ("LDC") is a public benefit corporation established in 2011 under Section 1411 of the New York Not-for-Profit Corporation Law to act as an "on behalf of" issuer of conduit tax exempt bonds. In January 2008, civic facility legislation expired and industrial development agencies no longer had the authority to issue tax exempt bonds or provide other financial assistance to 501c(3) organizations. The LDC was established to address the capital needs of these organizations. The LDC's function is via the issuance of industrial revenue bonds and other means to promote economic development. The LDC reviews and determines whether to recommend approval of those applicants wishing to obtain financing. The LDC receives fees from applicants and closing fees from those accepted for industrial revenue financing. The LDC is reported as a blended component unit of the Count due to the County's ability to influence the decisions of the LDC. The LDC's Board of Directors is comprised of individuals appointed by the County.

Broome County Land Bank Corporation—The Broome County Land Bank Corporation ("LBC") is a public benefit corporation incorporated June 11, 2013 and is a 501(c)3 public benefit corporation. The mission of the LBC is to foster economic and community development by acquiring, holding, managing, developing and marketing distressed, vacant, abandoned and underutilized properties. The LBC will attempt to stem disinvestment surrounding abandoned properties, secure and remediate abandoned properties, return vacant, abandoned, and tax-delinquent properties to productive use, turn vacant spaces into vibrant spaces, coordinate reuse of flood impacted properties, and promote increased levels of home ownership. The Broome County Legislature acting as the sole Member of the Corporation appoints a board consisting of seven directors The LBC is operated exclusively for the charitable and public purposes of benefiting and furthering the activities of Broome County.

Separately issued financial statements for all component units may be obtained from Broome County Office of Management and Budget at 44 Hawley Street, Binghamton, New York, 13901.

Basis of Presentation—Government-wide Financial Statements

While separate government-wide and fund financial statements are presented, they are interrelated. The governmental activities column incorporates data from governmental funds and internal service funds, while business-type activities incorporate data from the government's enterprise funds. Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the fiduciary funds are excluded from the government-wide financial statements.

As discussed earlier, the government has three discretely presented component units, which are presented in aggregate. All three discretely presented component units, the College, the District, and the IDA are presented in separate columns in the government-wide financial statements.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments in lieu of taxes where the amounts are reasonably equivalent in value to the interfund services provided and various other functions of the County. Elimination of these changes would distort the direct costs and program revenues reported for the various functions concerned.

Basis of Presentation—Fund Financial Statements

The fund financial statements provide information about the County's funds, including its fiduciary funds and blended component units. Separate statements for each fund category – governmental, proprietary, and fiduciary – are presented. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining governmental and enterprise funds are aggregated and reported as nonmajor funds.

The County reports the following major governmental funds:

- General Fund—The General Fund is the primary operating fund of the County and accounts for all financial resources of the general government, except those required to be accounted for in other funds. The principal sources of revenue for the General Fund are sales and use taxes, grants and aid and real property taxes.
- Capital Projects Fund—The Capital Projects Fund is used to account for financial resources to be used for the acquisition, construction or renovation of major capital facilities or equipment other than those financed by enterprise funds. The principal source of revenue for the Capital Projects Fund include grants and aid.
- *Debt Service Fund*—The Debt Service Fund is used to account for the financial resources and uses of the County's bond activities.
- Broome Tobacco Asset Securitization Corporation ("BTASC")—The BTASC Fund is used to account for the receipt and disbursement of resources related to tobacco assets and related obligations.

Nonmajor Special Revenue Funds—These nonmajor governmental funds are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes. The following special revenue funds are utilized:

• County Road Fund—The County Road Fund is used to account for expenditures for highway purposes authorized by Section 114 of the Highway Law. The principal source of revenue for the County Road Fund is state aid.

- Road Machinery Fund—The Road Machinery Fund is used to account for the purchase, repair, maintenance and storage of highway machinery, tools and equipment pursuant to Section 133 of the Highway Law. The principal source of revenue for the Road Machinery Fund is sale of property and interest earnings.
- *Library Fund*—The Library Fund is used to account for the financial transactions of the County of Broome Library System. The principal source of revenue for the Library Fund is departmental income.
- *Arena Fund*—The Arena Fund is used to account for the Visions Veterans' Memorial Arena. The principal source of revenue for the Arena Fund is departmental income.
- Employment and Training Fund—The Employment and Training Fund is used to account for monies received under the Workforce Investment and Workforce Innovation and Opportunity Acts. Expenditures made from this fund support programs designed to increase the employability of unemployed youth, displaced workers, and the chronically unemployed. The principal source of revenue for the Officer of Employment and Training Fund is federal aid.
- En-Joie Golf Course Fund—The En-Joie Golf Course Fund is used to account for the financial transactions of the County golf course. The principal source of revenue for the En-Joie Golf Course Fund is departmental income.

The County reports the following major business-type activities funds:

- *Public Transportation*—The Public Transportation Fund is used to account for the activities of the County's fixed route department of transportation system.
- *Willow Point Nursing Home*—The Willow Point Nursing Home Fund is used to account for the activities of the County's nursing home.
- Solid Waste Management—The Solid Waste Management Fund is used to account for the recycling and solid waste disposal activities of the County, in section IV of the Colesville Landfill.
- Aviation—The Aviation Fund accounts for the activities of the Broome County airport. The intent of the County is that the costs of operations of the airport will be financed through charges to users.

The County's nonmajor business-type activities funds are:

- Local Development Corporation—The Local Development Corporation is used to account for the financial transactions of a component unit which promotes local development for the County.
- Land Bank Corporation—The Lank Bank Corporation is used to account for the financial transactions of a component unit which fosters economic and community development for the County.

The County's internal service funds include:

• Internal Service Funds—The internal service funds are accounted for in a manner like enterprise funds. Unlike enterprise funds, in which the costs of services are financed through user charges, internal service funds generate revenues largely through the charge for services provided to County departments. Depreciation expense is included in rates charged to service users in conformity with GAAP. The inclusion of depreciation generates funds for future capital asset replacement. Net position reflects the accumulation of these amounts. Internal service funds include Fleet Management, Central Foods, Health Insurance, Workers' Compensation, Insurance Reserve, and Unemployment Insurance. These funds are presented in the aggregate as nonmajor

funds in the statement of revenues, expenses, and changes in net position – proprietary funds, but they are included in the governmental activities' column in the statement of net position.

These entities are financed and operated in a manner similar to a private business enterprise. The intent of the County is that the operating expenses (including depreciation and amortization expense) of providing goods or services to the general public on a continuous basis are to be financed or recovered primarily through user charges. The County may provide administrative, legal and operational assistance to the proprietary funds, which are not charged. Additionally, the General Fund periodically provides advances to the proprietary funds for operational needs.

Additionally, the County reports the following fund type:

• Fiduciary Funds—These funds are used to account for assets held by the County in a trustee capacity or as an agent for individuals, private organizations, other governmental units, and/or other funds. Trust funds account for resources received and disbursements made in accordance with trust agreements or applicable legislative enactments for each particular fund. Fiduciary funds include the Custodial Fund. Activities reported in the fiduciary funds include monies from outside entities, controlled and administered by the County for the benefit of others.

During the course of operations the County has activity between funds for various purposes. Any residual balances outstanding at year end are reported as due from/due to other funds and advances to/from other funds. While these balances are reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Balances between the funds included in governmental activities (i.e., the governmental and internal service funds) are eliminated so that only the net amount is included in business-type activities (i.e., the enterprise funds) are eliminated so that only the net amount is included as internal balances in the business-type activities column.

Further, certain activity occurs during the year involving transfers of resources between funds. In fund financial statements these amounts are recorded at gross amounts as transfers in/out. While reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Transfers between the funds included in governmental activities are eliminated so that only the net amount is included as transfers in the governmental activities column. Similarly, balances between the funds included in business-type activities are eliminated so that only the net amount is included as transfers in the business-type activities column.

Measurement Focus and Basis of Accounting

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such as *current financial resources* or *economic resources*. The basis of accounting indicates the timing of transactions or events for recognition in the financial statements.

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The governmental fund financial statements are reported using the *current financial resources* measurement focus and modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the County considers property tax revenues to be available if they are collected within 60 days of

the end of the current fiscal period; all other revenues are deemed to be available if they are collected within 90 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, and claims and judgments, are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Issuance of long-term debt and subscription liability acquisitions are reported as other financing sources.

Property taxes, sales taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Entitlements are recorded as revenues when all eligibility requirements are met, including any time requirements, and the amount is received during the period of availability. Expenditure driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other eligibility requirements have been met, and the amount is received during the period or within the availability period for this revenue source (within 365 days of year-end). All other revenue items are considered to be measurable and available only when cash is received by the County.

The proprietary and fiduciary funds are reported using the *economic resources measurement focus* and the *accrual basis of accounting*.

Assets, Liabilities, Deferred Outflows/Inflows of Resources and Net Position/Fund Balance

Cash and Cash Equivalents—Cash and cash equivalents include cash on hand, demand deposits, time deposits, and short-term, highly liquid investments with original maturities of three months or less from the date of acquisition. State statutes and various resolutions of the County Legislature govern the County's investment policies. County monies must be deposited in FDIC-insured commercial banks or trust companies located within the State. Investments are recorded at fair value in accordance with GASB.

Restricted Cash and Cash Equivalents—Restricted cash and cash equivalents represent amounts to support fund balance restrictions, unearned revenues, debt proceeds and cash held on behalf of others.

Investments—The County's investments consist of treasury notes and certificates of deposits with a maturity greater than three months. The County's policy is to record investments at fair value in accordance with GASB.

Intergovernmental Receivables—Receivables are stated net of estimated allowances for uncollectible amounts. Amounts due from state and federal governments represent amounts owed to the County to reimburse it for expenditures incurred pursuant to state and federally funded programs.

Prepaid Items—Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements. The cost of prepaid items is recorded as expenses/expenditures when consumed rather than when purchased.

Inventories—Inventories are recorded at the lower of cost or market using the first-in, first-out method. Inventories largely consist of office and medical supplies reported within governmental and business-type activities.

Capital Assets—Capital assets, which include property, plant, equipment, infrastructure, right-to-use lease assets and subscription-based information technology arrangement ("SBITA") assets, are reported in the applicable governmental or business-type activities columns in the government-wide financial statements, as well as within each individual proprietary fund. Capital assets are defined by the County as assets with an initial, individual cost of more than \$5,000 (\$500 for the Nursing Home), and an estimated useful life in excess of three years. Such assets are recorded at historical cost or estimated historical cost,

if purchased or constructed. The reported value excludes normal maintenance and repairs, which are essentially amounts spent in relation to capital assets that do not increase the capacity or efficiency of the item or increase its estimated useful life. Donated capital assets, donated works of art and similar items, and capital assets received in a service concession arrangement are reported at acquisition value. Right-to-use leased assets and SBITA assets are initially measured as the initial amount of the liability, adjusted for lease payments made at or before the commencement date, plus certain initial direct costs and are amortized on a straight line basis over their useful lives.

Land and construction in progress are not depreciated/amortized. The other capital assets of the primary government are depreciated/amortized using the straight-line method over the following estimated useful lives:

Capital Assets	Years
Bridges	25
Buildings and improvements	20
Roads	20
Vehicles	3-12
Landfill equipment	5
Right-to-use lease assets - buildings	5-15
Right-to-use lease assets - equipment	5
SBITA assets	2-5

The *capital outlays* character classification is employed only for expenditures reported in the Capital Projects Fund. Routine capital expenditures in the General Fund and other governmental funds are included in the appropriate functional category (for example, the purchase of a new police vehicle included as part of *expenditures—public safety*). At times, amounts reported as *capital outlays* in the Capital Projects Fund will also include non-capitalized, project-related costs (for example, furnishings).

Unearned Revenue—Certain revenues have not met the revenue recognition criteria for government-wide or fund financial purposes. At December 31, 2024, the County reported unearned revenues within the General Fund, Capital Projects Fund, Nonmajor Governmental funds, Solid Waste Management Fund, Aviation Fund, Nonmajor Business-type funds and Internal Service funds in the amounts of \$24,747,724, \$28,061, \$32,071, \$4,203, \$24,618, \$1,972,753 and \$337,567, respectively. The County received cash in advance related to various grants, prepaid user fees, and other items but has not performed the services, and therefore recognizes a liability.

Deferred Outflows/Inflows of Resources—In addition to assets, the statement of financial position and the balance sheet will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. At December 31, 2024, the County's primary government has two items that qualify for reporting in this category. The first item is related to pensions reported in the government-wide financial statements and proprietary fund financial statements. This item represents the effect of the net change in the County's proportion of the collective net pension liability/(asset), the difference during the measurement period between the County's contributions and its proportionate share of the total contribution to the pension systems not included in the pension expense, and any contributions to the pension systems made subsequent to the measurement date. The second item is related to OPEB reported in the government-wide and proprietary fund financial statements and represents the effects of the change in the County's proportion of the collective OPEB liability and difference during the measurement period between certain of the employer's contributions and its proportionate share of the total of certain contributions from employers included in the collective OPEB liability.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. At December 31, 2024, the primary government of the County has five items that qualify for reporting in this category. One of the items arises only under a modified accrual basis of accounting. Accordingly, the item, unavailable revenue, is reported as deferred inflows of resources only in the governmental funds balance sheet. The governmental funds report unavailable revenue from property taxes that will not be realized within the period of availability. These amounts are deferred and recognized in the period that the amounts become available. The second item represents the effect of the net change in the County's proportion of the collective net pension liability/(asset) and the difference during the measurement periods between the County's contributions and its proportionate share of total contributions to the pension systems not included in pension expense and is reported on the government-wide financial statements as well as within the individual proprietary funds. The third item represents the effects of the change in the County's proportion of the collective OPEB liability and difference during the measurement period between certain of the employer's contributions and its proportionate share of the total of certain contributions from employers included in the collective OPEB liability. The fourth item is a deferred gain on refunding, which the County reports within its governmental activities. A deferred gain on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. The final item, presented within its governmental activities and business-type activities, is recognized at the commencement of the County's lease receivable and amortized over the life of the lease.

Net Position Flow Assumption—Sometimes the County will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted—net position and unrestricted—net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the County's position to consider restricted—net position to have been depleted before unrestricted—net position is applied.

Fund Balance Flow Assumptions—Sometimes the County will fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance). In order to calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the County's policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

Fund Balance Policies—Fund balance of governmental funds is reported in various categories based on the nature of any limitations requiring the use of resources for specific purposes. The County itself can establish limitations on the use of resources through either a commitment (committed fund balance) or an assignment (assigned fund balance).

The committed fund balance classification includes amounts that can be used only for specific purposes determined by a formal action of the government's highest level of decision-making authority. The County Legislature is the highest level of decision-making authority for the County that can, by adoption of a resolution prior to the end of the fiscal year, commit fund balance. Once adopted, the limitation imposed by the resolution remains in place until a similar action is taken (the adoption of another resolution) to remove or revise the limitation.

Amounts in the assigned fund balance classification are intended to be used by the government for specific purposes but do not meet the criteria to be classified as committed. The County Legislature has by resolution authorized the Director of the Office of Management and Budget to assign amounts for specific purposes. The Legislature may also assign fund balance as it does when appropriating fund balance to cover a gap between estimated revenue and appropriations in the subsequent year's appropriated budget. Unlike commitments, assignments generally only exist temporarily. In other words, an additional action does not normally have to be taken for the removal of an assignment. Conversely, as discussed above, an additional action is essential to either remove or revise a commitment.

Leases/SBITA—The County recognized lease and SBITA liabilities that are considered significant, individually or in the aggregate, to the financial statements. At the commencement of a lease/SBITA, the County initially measures the liability at the present value of any remaining payments expected to be made during the lease/SBITA term. Subsequently, the liability is reduced by the principal portion of the payments made, as applicable. More information regarding the lease liability is included in Note 11.

Revenues and Expenses/Expenditures

Program Revenues—Amounts reported as *program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. All taxes, including those dedicated for specific purposes, and other internally dedicated resources are reported as general revenues rather than as program revenues.

Property Taxes—County, town, and village operations are primarily funded by real property taxes. School district operations are also significantly funded by real property taxes. Delinquent school and village property taxes are returned to the County in November of each year to be relevied on the next Town and County real property tax bill the following January. The State Legislature has authorized the Broome County Legislature to levy real property taxes for town and county purposes, through various provisions of the Real Property Tax Law including Article 9, entitled the Levy and Collection of Taxes.

All municipalities in the County value real property within their boundaries. The final assessment rolls are complete on the first day of July of each year. The amount of operations to be financed by real property taxes is determined during the budget process for towns and the County. Town budgets are forwarded to the County for use in the preparation of the town and county real property tax bills. The amount of real property taxes to be levied for County operations is distributed across the municipalities within the county based on their proportionate share of taxable full value. The real property tax amounts to be levied for town operations are identified in their adopted budgets. Other items included in the real property tax levy are workers' compensation assessments to municipalities participating in the County's worker's compensation plan pool, real property tax refunds made by the County on behalf of the municipalities, election board costs and returned delinquent school and village real property taxes.

The tax levy process is as follows:

- *January*—Real property tax bills are mailed to taxpayers.
- January March—Town and County real property taxes are collected by the town tax collectors except for the towns of Binghamton, Conklin, Dickinson, Kirkwood, Fenton, Nanticoke and Union, and the City of Binghamton. The County acts as tax collector for these municipalities.

- *April*—Town Tax Collector warrants expire at the end of March. The tax collectors individually settle their warrants with the Director of Office of Management and Budget by April 30th. Town Supervisors have received the amount of their tax levy from the collectors by this time. The Director of Office of Management and Budget collects unpaid taxes from April 1st forward.
- *November*—Local municipalities notify the County of the amount of sales tax they elect to apply to the next year's County tax levy. This information is aggregated into a resolution submitted to the County Legislature for approval. It is incorporated in the preparation of the tax warrants and tax bills.
- **November December**—Assessments for each of the municipal participants in the County Sponsored Workers' Compensation Pool are computed and approved by the County Legislature. The municipalities notify the County whether they will elect to pay the amounts in cash or have the amounts added to the real property tax levy.

Municipalities are notified of real property tax refunds made by the County on their behalf as well as their share of election board costs. Municipalities notify the County whether they will pay the amounts in cash or have the amounts added to the real property tax levy.

Unpaid school district and village real property taxes are returned to the County in November. These are re-levied on the next year's town and county real property tax levy. They are recorded as both an asset, property tax receivable, and an offsetting liability in due to other governments on the County's General Fund balance sheet. The unpaid school taxes for the City of Binghamton are not added to the City real property tax levy, they are held for a period after which the real property becomes subject to sale.

• **December**—Equalization rates are calculated by New York State. The County accepts the equalization rates by Legislative approval. Tax warrants are prepared. They are then approved by the County Legislature, and signed by the County Executive before being distributed to municipalities. Tax bills are printed and distributed to town tax collectors.

The tax levy for the City of Binghamton, which is prepared by the City, is approved by the County Legislature.

Real property taxes are collected by the town tax collectors from January 1 through March 31st. Town tax collectors settle the warrant with the Director of Office of Management and Budget in April. The County makes collections thereafter. A five percent penalty is added to unpaid items as of April 1st, in accordance with Section 936 of the Real Property Tax Law. Interest of 12 percent per annum is added to the returned amount until October, when they become a lien. The redemption period for the taxes is 24 months after the lien date.

Pursuant to County Legislative Resolution 568 of 1996, adopting Local Law 1 of 1996, the Director of Real Property Tax Services is authorized to enter agreements with delinquent taxpayers allowing them to pay such delinquent amounts in installments on a monthly, quarterly, or semiannual basis. Interest is accrued on the delinquent amount at a rate of 12 percent per annum.

Compensated Absences—The County employees are entitled, with certain limitations, to accrue sick leave and vacation time. Estimated sick leave and vacation time is accumulated by governmental fund type employees and reported as a liability and expenditure in the government-wide financial statements under governmental activities. For proprietary fund type employees, the accumulation is recorded as a noncurrent liability of the proprietary fund type. The compensated absences liability for the County's governmental and business-type activities at December 31, 2024 totaled \$9,905,234 and \$1,431,759, respectively, and are reported in the government-wide financial statements and proprietary fund financial statements.

Payment of sick leave and compensatory time recorded in the government-wide financial statements is dependent on many factors; therefore, the timing of future payments in not readily determinable. However, management believes that sufficient resources will be available for the payment of compensated absences when such payments become due.

Proprietary Funds Operating and Nonoperating Revenues and Expenses—Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues of enterprise funds consist of charges for services and operating grants. Operating expenses of enterprise funds consist of salaries, wages and benefits, contractual services and depreciation. Transactions related to capital and financing activities, non-capital financing activities, investing activities and interfund transfers from other funds and State appropriations are components of nonoperating income. Subsidies and grants to proprietary funds which finance capital activities are reported as nonoperating revenue.

Pension Plans—The County is mandated by New York State law to participate in the New York State Local Employees' Retirement System ("ERS"). For purposes of measuring the net pension liability/(asset), deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the defined benefit pension plans, and changes thereof, have been determined on the same basis as they are reported by the respective defined benefit pension plans. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value. More information regarding pensions is included in Note 8.

Other Postemployment Benefits—In addition to providing pension benefits, the County provides health insurance coverage and/or payments for fractional values of unused sick leave for certain retired employees at the time of retirement, as discussed in Note 9.

Other

Estimates—The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, deferred outflows/inflows of resources, and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements. Estimates also affect the reported amounts of revenue and expenses/expenditures during the reported period. Actual results could differ from those estimates.

Adoption of New Accounting Pronouncements—During the year ended December 31, 2024, the County implemented GASB Statements No. 99, Omnibus 2022; No. 100, Accounting Changes and Error Corrections—an amendment of GASB Statement No. 62; and No. 101, Compensated Absences. GASB Statement No. 99 enhances comparability in accounting and financial reporting and to improves the consistency of authoritative literature by addressing practice issues related to financial guarantees and the classification and reporting of derivative instruments within the scope of Statement No. 53. GASB Statement No. 100 improves financial reporting by enhancing accounting and financial reporting requirements for accounting changes and error corrections to provide more understandable, reliable, relevant, consistent, and comparable information for making decisions or assessing accountability. GASB Statement No. 101 will result in a liability for compensated absences that more appropriately reflects when a government incurs an obligation. The implementation of GASB Statements No. 99, 100, and 101 did not have a material impact on the County's financial position or results from operations.

Future Impacts of Accounting Pronouncements—The County has not completed the process of evaluating the impact that will result from adopting GASB Statements No. 102, Certain Risk Disclosures, effective for the year ending December 31, 2025; and No. 103, Financial Reporting Model Improvements; and No. 104, Disclosure of Certain Capital Assets, effective for the year ending December 31, 2026. The County is, therefore, unable to disclose the impact that adopting GASB Statements No. 102, 103, and 104 will have on its financial position and results of operations when such statements are adopted.

Stewardship, Compliance and Accountability

Legal Compliance—Budgets—Annual budgets of the General Fund, Special Revenue Funds, Enterprise Funds and Internal Service Funds are legally adopted and are under formal budgetary control. The individual grant programs related to these funds, the financing for which are entirely or almost entirely from outside sources (federal aid, state aid, etc.), and the individual capital programs of the Capital Projects Fund have budgets adopted at various times of the year based on the program's fiscal year.

Unencumbered appropriations lapse at year-end. Encumbrances outstanding at year-end are reported in the appropriate fund balance classification and are re-appropriated in the ensuing year's budget.

The Capital Projects Fund includes the various capital programs in progress. A capital project's budget is a financial plan for a period longer than one fiscal year.

The following procedures establish the budgetary data reflected in the financial statements:

Original budget:

- 1) Departmental and agency hearings are conducted by the County Executive's Office to review proposed annual budgets submitted by departments and agencies. Final budget information is accumulated by the Director of Office of Management and Budget and submitted to the County Executive.
- 2) On or before September 15, the County Executive submits the proposed budget to the County Legislature, along with a Capital Improvement Program for the next six fiscal years.
- 3) A public hearing is conducted by the County Legislature to obtain public comment on the tentative budget.
- 4) Changes made to the budget by the Legislature are returned to the County Executive for review and possible veto. Vetoed items are returned to the Legislature. These vetoes can be overridden by a two-thirds majority vote of the Legislature.
- 5) A second public hearing is held to review changes recommended by the Legislature.
- 6) No later than November 25th, the annual budget completed by adoption of an appropriation ordinance, which is the legal authority for enactment of the budget. The legal level of budgetary control is character at a department level. Character is a grouping of related expenditure accounts such as contractual and personal services. Budget and actual data at the legal level of budgetary control is not presented in this report due to the excessive detail involved. However, a separate budgetary comparison report is available containing this information.

Budget modifications:

- 1) Certain annual appropriations are budgeted on a project or program basis. These include capital projects and grant programs funded through State or Federal sources. If such projects or programs are not completed at the end of the fiscal year, unexpended appropriations are carried forward to the following fiscal year.
- 2) The County Executive may at any time during the fiscal year transfer part or all any unencumbered appropriation balance between classifications of expenditures within the same administrative unit, if prior approval by resolution of the County Legislature shall be required if the proposed transfer would affect any salary rate or salary total.

The County Executive may request, in writing, that the County Legislature transfer by resolution, part or all any unencumbered appropriation balance from one County administrative unit to another, or from a contingent fund to any administrative unit. No such transfer shall be made from appropriations for debt service, or reduce any appropriation below the amount required by law.

The County Legislature may make emergency appropriations in the event of a public emergency affecting life, health or property. To the extent that there are no legally available unappropriated balances to meet such appropriations, the County Legislature may authorize the issuance of obligations pursuant to the Local Finance Law.

Deficit Fund Balance and Net Position—The Capital Projects Fund has a fund balance of \$(30,668,988) at December 31, 2024. The deficit is caused by the County's issued bond anticipation notes ("BANs"), which do not qualify for treatment as a long-term liability. Accordingly, the BANs are reported as a fund liability in the Capital Projects Fund balance sheet (rather than an inflow on the statement of revenues, expenditures, and changes in fund balances). When the cash from the BANs is spent, expenditures are reported and fund balance is reduced. Because the BANs are the main source of resources for the fund, the result is an overall fund deficit. This deficit will be eliminated as resources are obtained (e.g., from revenues, long-term debt issuances, and transfers in) to make the scheduled debt service principal and interest payments on the BANs.

At December 31, 2024, Willow Point Nursing Home had a net position deficit of \$19,178,667. The major factor contributing to the reported deficit is primarily due to the effect of the OPEB obligation, with an unfunded long-term obligation of \$22,546,260, including the impacts of deferred inflows/outflows of resources.

At December 31, 2024, the County's governmental activities had a total net position of \$(95,952,142) due primarily to the effect of the OPEB obligation, with an unfunded long-term obligation of \$177,851,827, including the impacts of deferred inflows/outflows of resources.

2. RESTATEMENT OF FUND BALANCE AND NET POSITION

The County Legislature adopted the 2024 budget that eliminated the Internal Service Fund—Central Foods. As such, effective December 31, 2023, the Central Food Fund has been eliminated, thereby changing its financial reporting entity to account for the central foods activity within the General Fund and Workers' Compensation Fund. As a result of this change in the reporting entity, fund balance and net position within the General Fund, Central Foods Fund and Workers' Compensation Fund have been restated as of December 31, 2023. The effect of this change to beginning fund balance and net position are summarized below:

			Internal S	ervic	e Funds	
	General		Central		Workers'	
	Fund	F	Foods Fund		Compensation Fund	
Beginning fund balance/net position, as previously stated	\$ 100,778,283	\$	(244,651)	\$	8,665,825	
Fund balance/net position related to Central Foods Fund	739,842		244,651		(113,743)	
Beginning fund balance/net position, as restated	\$ 101,518,125	\$	-	\$	8,552,082	

The County's discretely presented component unit, the IDA, also restated beginning net position at December 31, 2023 by \$1,787,095 due to the correction of an error.

3. CASH, CASH EQUIVALENTS AND INVESTMENTS

The County's investment policies are governed by State statutes. In addition, the County has its own written investment policy. County monies must be deposited in Federal Deposit Insurance Corporation ("FDIC") insured commercial banks or trust companies located within the State. The County is authorized to use demand accounts and certificates of deposit. Permissible investments include obligations of the U.S. Treasury and U.S. Agencies, repurchase agreements, and obligations of New York State or its localities.

Collateral is required for demand deposit accounts, time deposit accounts and certificates of deposit at 100% of all deposits not covered by Federal deposit insurance. The County has entered into custodial agreements with the various banks which hold their deposits. These agreements authorize the obligation that may be pledged as collateral. Obligations that may be pledged as collateral are outlined in Chapter 623 of the laws of the State of New York.

Cash, cash equivalents and investments at December 31, 2024 are as follows:

	G	Sovernmental	В	usiness-type	Fiduciary		
		Activities		Activities	Funds		Total
Petty cash (uncollateralized)	\$	28,820	\$	5,400	\$ -	\$	34,220
Deposits		15,204,966		6,853,597	5,950,860		28,009,423
Money market funds		108,114,379		52,435,892	 	_	160,550,271
Total	\$	123,348,165	\$	59,294,889	\$ 5,950,860	\$	188,593,914

Deposits—All deposits are carried at fair value, and are classified by custodial credit risk at December 31, 2024 as follows:

	Bank		Carrying	
	Balance	Amount		
FDIC insured	\$ 1,261,376	\$	1,250,000	
Uninsured:				
Collateral held by pledging bank's				
agent in the County's name	 192,469,554		187,309,694	
Total	\$ 193,730,930	\$	188,559,694	

Custodial Credit Risk—Deposits and Cash Equivalents—Custodial credit risk is the risk that in the event of a bank failure, the County's deposits and cash equivalents may not be returned to it. As noted above, by State Statute all deposits and cash equivalents in excess of FDIC insurance coverage must be collateralized. As of December 31, 2024, the County's deposits and cash equivalents were either FDIC insured or collateralized with securities held by the pledging bank's agent in the County's name.

Restricted Cash and Cash Equivalents—Restricted cash of the County consists of cash reported within the Capital Projects Fund in the amount of \$31,807,321, and cash restricted for future debt service within both the Debt Service Fund and BTASC Fund of \$1,416,659 and \$3,127,021, respectively. The County also reports restricted cash to support restricted fund balances subject to externally enforceable legal purpose restrictions within the General Fund and internal service funds of \$13,927,188, and \$5,836,292, respectively. The County also reports restricted cash relating to unearned revenues and unspent debt proceeds within the County's General Fund, Capital Projects Fund, nonmajor governmental funds, Nursing Home Fund, Solid Waste Management Fund, Aviation Fund, and internal service funds of \$24,747,724, \$28,061, \$32,071, \$1,204,879, \$3,996,796, \$24,618, and \$337,567, respectively. Lastly, the County reports restricted cash held on behalf of others in the amount of \$5,950,860 within the Fiduciary Funds. These deposits were fully covered by FDIC insurance or collateral held by escrow agents in the name of the County or were cash equivalent discount notes.

Investments—All investments are reported using a three-level hierarchy that prioritizes the inputs used to measure fair value. This hierarchy, established by GAAP, requires that entities maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The three levels of inputs used to measure fair value are as presented below:

- Level 1. Quotes prices for identical assets or liabilities in active markets to which the County has access at the measurement date.
- Level 2. Inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include:
 - Quoted prices for similar assets or liabilities in active markets;
 - Quoted prices for identical or similar asses in markets that are not active;
 - Observable inputs other than quoted prices for the asset or liability (for example, interest rates and yield curves); and
 - Inputs derived principally from, or corroborated by, observable market data by correlation or by other means.
- Level 3. Unobservable inputs for the asset or liability. Unobservable inputs should be used to measure fair value to the extent that observable inputs are not available.

Investments reported within governmental activities at December 31, 2024 are as follows:

		Fair Value Measurements Using					
		Quoted Prices Significant					
		in Active Markets			Other	Sig	nificant
		for Identical		O	bservable	Unol	bservable
	 12/31/2024	Ass	sets (Level 1)	Inpu	ts (Level 2)	Inputs	s (Level 3)
U.S. Treasury notes	\$ 39,014,369	\$	39,014,369	\$		\$	
	\$ 39,014,369	\$	39,014,369	\$		\$	

Interest Rate Risk— Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of deposits and investments. The County investment policy limits investment maturities to two years as a means of managing its exposure to fair value losses arising from increasing interest rates.

Custodial Credit Risk—Investments—Credit risk is defined as the risk that an issuer or other counterparts to an investment in debt securities will not fulfill its obligation. The County's investment policy minimizes credit risk by limiting investments to the safest types of securities, pre-qualifying the financial institutions, broker/dealers, intermediaries, and advisors with which the County does business, and diversifying the investment portfolio so that potential losses on individual securities are minimized.

Credit Risk—Investments—In compliance with the State law, County investments are limited to obligations of the Federal government, obligations guaranteed by the Federal government where the payment of principal and interest are guaranteed by the Federal government, obligations of the State, time deposit accounts and certificates of deposit issued by a bank or trust company located in, and authorized to do business in, the State, and certain joint or cooperative investment programs.

Discretely Presented Component Units

i) Broome Community College

Cash, Cash Equivalents and Investments—The College's cash and cash equivalents consist of cash on hand, demand deposits, and short-term investments with original maturities of three months or less from date of acquisition. New York State law governs the College's investment policies. Resources must be deposited in FDIC insured banks. Permissible investments include obligations of the United States Treasury, United States Agencies, repurchase agreements and obligations of New York State or its localities. Collateral is required for demand and time deposits and certificates of deposit not covered by FDIC insurance.

Custodial credit risk is the risk that in the event of a bank failure, the College's deposits may not be returned to it. While the College does not have a specific policy for custodial credit risk, New York State statutes govern the College's investment policies, as discussed previously in these Notes. GASB Statement No. 40 directs that deposits be disclosed as exposed to custodial credit risk if they are not covered by depository insurance and the deposits are either:

- Uncollateralized.
- Collateralized with securities held by the pledging financial institution in the College's name, or
- Collateralized with securities held by the pledging financial institution's trust department or agent, but not in the College's name.

The College's aggregate bank balances (disclosed in the financial statements) were entirely covered by depository insurance or collateral held in the College's name at August 31, 2024.

The College does not purchase investments denominated in a foreign currency and is not exposed to foreign currency risk.

With respect to the component units (Broome Community College Foundation, Inc., Faculty-Student Association of Broome Community College, Inc., and BCC Housing Development Corporation) the risk categories for deposits and investments are the same as those stated above for the primary government. Each of these component units have their own investment policies and are not subject to state statutes.

Investments of the College are reported by its Foundation with a year ended June 30, 2024. Investments are reported at fair value using net asset value as a practical expedient in the statements of financial position, with all gains and losses included in the statements of activities. The Foundation's investment process seeks to achieve a predictable, reliable, and continuous source of funds to support the operations of the Foundation. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Investments at June 30, 2024 consisted of the following:

Mutual funds	\$ 3,867,199
Bond funds	4,634,585
Equity funds	21,080,122
Real estate funds	2,367,486
Private equity funds	3,232,992
Hedge funds	7,119,493
Total	\$ 42,301,877

The College categorizes its fair value measurements within the fair value hierarchy established by U.S. GAAP. The hierarchy is based on the valuation of inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

The College's investments of \$42,301,877 are valued using quoted markets prices (Level 1).

ii) Broome County Soil and Water Conservation District

Cash and Cash Equivalents—The District's cash and cash equivalents consist of cash on hand, demand deposits, and short-term investments with original maturities of three months or less from date of acquisition. New York State law governs the College's investment policies. Resources must be deposited in FDIC insured banks. Permissible investments include obligations of the United States Treasury, United States Agencies, repurchase agreements and obligations of New York State or its localities. Collateral is required for demand and time deposits and certificates of deposit not covered by FDIC insurance.

Custodial credit risk is the risk that in the event of a bank failure, the District's deposits may not be returned to it. While the District does not have a specific policy for custodial credit risk, New York State statutes govern the District's investment policies.

The District's aggregate bank balances (disclosed in the financial statements) were entirely covered by depository insurance or collateral held in the District's name at December 31, 2024.

iii) Broome County Industrial Development Agency

Cash, Cash Equivalents and Investments—State statutes govern the IDA's investment policies. In addition, the IDA has its own written investment policy. Monies must be deposited in Federal Deposit Insurance Corporation (FDIC) insured commercial banks or trust companies located within the state. The Treasurer is authorized to use demand accounts and certificates of deposit. Permissible investments include obligations of the U.S. Treasury and obligations of New York State or its localities.

Collateral is required for demand deposits and certificates of deposit for the IDA at 105% and 100%, respectively, of all deposits not covered by federal deposit insurance. Obligations that may be pledged as collateral are obligations of the United States and its agencies and obligations of the state and its municipalities and school districts.

Total bank balances of the IDA of \$3,853,756 at December 31, 2024 were covered by FDIC insurance up to \$250,000. As of December 31, 2024, all deposits with financial institutions were either insured or collateralized with securities held by the pledging financial institution in the IDA's name.

Restricted cash of \$1,690,246 consists of cash for the IDA's STEED and BDF loan funds.

The IDA categorizes its fair value measurements within the fair value hierarchy established by U.S. GAAP. The hierarchy is based on the valuation of inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

The IDA has the following recurring fair value measurements as of December 31, 2024: U.S. Treasury notes of \$8,461,450 ranging in maturities from two to ten years, are valued using quoted market prices (Level 1). Treasury notes that have a maturity greater than one year are classified as current assets.

4. RECEIVABLES

Major revenues accrued by the County at December 31, 2024 consisted of the following:

Taxes Receivable—Represents amounts due from County taxpayers that remain unpaid. At December 31, 2024, the County recorded \$36,794,962 related to taxes receivable. These amounts are reported net of an allowance for uncollectible taxes provision of \$4,747,640.

Accounts Receivable—Represents amounts due from various sources. The County's accounts receivable at December 31, 2024 are presented as follows:

Governmental funds:	
General Fund	\$ 2,887,612
Capital Projects Fund	1,872,036
Nonmajor governmental funds	 462,817
Total governmental funds	\$ 5,222,465
Proprietary funds:	
Public Transportation Fund	\$ 2,329,528
Willow Point Nursing Home (net of allowance of \$644,035)	3,647,361
Solid Waste Management Fund (net of allowance of \$6,572)	1,466,064
Aviation Fund (net of allowance of \$381,540)	154,144
Nonmajor Business-type funds	50,807
Internal Service Funds	 6,646,740
Total proprietary funds	\$ 14,294,644

Leases Receivable—The County recognizes the lease of land and office space to third parties. During the year ended December 31, 2024, the County's governmental activities recognized \$116,160 in lease revenue, whereas the County's business-type activities recognized \$177,267 in lease revenue during the current fiscal year related to these leases. As of December 31, 2024, the County's receivable for lease payments was \$19,306 as to the governmental activities and \$1,150,130 as to the business-type activities. Also, the County has a deferred inflow of resources associated with these leases that will be recognized as revenue over the lease term. As of December 31, 2024, the balance of the deferred inflow of resources reported within the governmental activities and the business-type activities was \$27,493 and \$1,085,896, respectively.

Intergovernmental Receivables—Represents amounts due from other units of government, such as Federal, New York State or other local governments. Amounts are net of related advances from New York State. Intergovernmental receivables at December 31, 2024 are presented on the following page.

Governmental funds:	
General Fund:	
Due from state and federal	\$ 55,250,055
Capital Projects Fund:	
Due from state and federal	291,258
Nonmajor governmental funds:	
Due from state and federal	 574,000
Total governmental funds	\$ 56,115,313
Proprietary funds:	
Public Transportation Fund:	
Due from state and federal	3,350,411
Willow Point Nursing Home:	
Due from state and federal	7,185,880
Solid Waste Management Fund:	
Due from state and federal	79,056
Aviation Fund:	
Due from state and federal	12,125,048
Internal Service Funds:	
Due from state and federal	 114
Total proprietary funds	\$ 22,740,509

5. SALES TAX

The County is authorized to impose a sales tax pursuant to Articles 28 and 29 of New York State Tax Law. The sales tax rate within Broome County is eight percent. Of the 8% the County share is 4%. The remaining 4% is the State sales and compensating use tax. Sales tax collections are administered by the New York State Commissioner of Taxation and Finance. The amount of sales tax collections made by the State Commissioner is remitted to the County after deducting the State Commissioner's administrative expenses. Remittances to the County are made twice each month except for the months of June and December in which there are three.

Of the 4% County sales tax, the County retains 1% and shares 37.5% of the remaining 3% with the local municipalities within the County. Using 2020 Federal Census figures, distributions to municipalities are made quarterly in January, April, July, and October based on their proportionate share of population. For towns containing villages a further proration is made based on the town and village populations. Amounts due to the local municipalities of \$6,619,487 as of December 31, 2024, are included in due to other governments in the general fund.

Sales tax receipts on sales made in 2024 totaled approximately \$186.8 million of which approximately \$116.7 million was retained by the County pursuant to local legislative enactments. The remaining amounts were distributed. The distributions totaled:

County Towns	\$41.2 million
County Villages	\$11.9 million
City of Binghamton	\$17.0 million

New York State periodically audits its distribution of sales tax revenues to counties throughout the state, although the County has never been so audited. Subsequent revisions to the revenues recorded as of December 31, 2024, if any, would be recorded in the year that they are calculated.

6. CAPITAL ASSETS

Governmental activities—Capital asset activity for the primary government's governmental activities for the year ended December 31, 2024 was as follows:

	Balance			Balance
	1/1/2024	Increases	Decreases	12/31/2024
Capital assets, not being depreciated/amortized:				
Land	\$ 8,468,146	\$ -	\$ -	\$ 8,468,146
Construction in progress	18,562,164	15,900,916	167,216	34,295,864
Total capital assets, not being depreciated/amortized	27,030,310	15,900,916	167,216	42,764,010
Capital assets, being depreciated/amortized:				
Buildings and building improvements	141,352,116	73,476	-	141,425,592
Improvements other than buildings	186,790,360	7,553,788	-	194,344,148
Machinery and equipment	60,207,097	6,638,482	3,368,187	63,477,392
Right-to-use lease assets - buildings	20,379,307	-	-	20,379,307
SBITA assets	4,404,884	330,794	736,098	3,999,580
Total capital assets, being depreciated/amortized	413,133,764	14,596,540	4,104,285	423,626,019
Less accumulated depreciation/amortization for:				
Buildings and building improvements	126,720,166	2,401,300	-	129,121,466
Improvements other than buildings	139,581,535	6,454,241	-	146,035,776

8. PENSION OBLIGATIONS

Plan Descriptions and Benefits Provided

New York State and Local Employees' Retirement System ("ERS")—The County participates in the ERS, a cost-sharing multiple-employer retirement system (the "System"). The System provides retirement benefits as well as death and disability benefits. The net position of the System is held in the New York State Common Retirement Fund (the "Fund"), which was established to hold all assets and record changes in fiduciary net position allocated to the System. The Comptroller of the State of New York serves as the trustee of the Fund and is the administrative head of the System. System benefits are established under the provisions of the NYSRSSL. Once a public employer elects to participate in the System, the election is irrevocable. The New York State Constitution provides that pension membership is a contractual relationship and plan benefits cannot be diminished or impaired. Benefits can be changed for future members only by enactment of a State statute. The System is included in the State's financial report as a pension trust fund. That report, including information with regards to benefits provided, may be found at www.osc.state.ny.us/retire/publications/index.php or obtained by writing to the New York State and Local Retirement System, 110 State Street, Albany, NY 12244.

The System is noncontributory, except for those employees who joined the ERS after July 27, 1976 who contribute 3% of their salary for the first ten years of membership and employees who joined on or after January 1, 2010, who generally contribute 3.0% to 3.5% of their salary for their entire length of service. Those joining after April 1, 2012 (Tier 6) are required to contribute a percentage ranging from 3% to 6%, based on salary. Under the authority of the NYSRSSL, the Comptroller annually certifies the actuarially determined rates expressly used in computing the employer's contributions based on the salaries paid during the ERS's fiscal year ending March 31. The County's pension plan does not have any assets accumulated in a GASB-compliant trust.

Pension Liability, Pension Expense, Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions—At December 31, 2024, the County reported the following liability for its proportionate share of the net pension liability for ERS. The net pension liability was measured as of March 31, 2024. The total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of April 1, 2023, with update procedures used to roll forward the total pension

liability to the measurement date. The County's proportion of the net pension liability was based on a projection of the County's long-term share of contributions to the ERS relative to the projected contributions of all participating members, actuarially determined. This information was provided by the ERS in reports provided to the County.

	ERS										
Measurement date	March 31, 2024										
		Governmental Activities	Business-type Actvities								
Net pension liability	\$	42,656,880	\$	7,621,325							
County's portion of the Plan's total											
net pension liability		0.3257273%		0.0582040%							

For the year ended December 31, 2024, the County recognized ERS pension expense of \$16,663,022 and \$2,977,112 for governmental and business-type activities, respectively. At December 31, 2024, the County reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

S	ERS										
		Governmen	tal Ac	tivties		Business-typ	e Ac	tivities			
	Deferred Outflows of Resources		Deferred Inflows of Resources		Deferred Outflows of Resources			erred Inflows Resources			
Differences between expected and											
actual experiences	\$	13,739,747	\$	1,163,141	\$	2,454,823	\$	207,814			
Changes in assumptions		16,127,608		-		2,862,445		-			
Net difference between projected and actual earnings on pension plan investments		-		20,837,659		-		3,722,978			
Changes in proportion and differences between the County's contributions and											
proportionate share of contributions		711,865		4,774,703		146,194		853,073			
County contributions subsequent											
to the measurement date		9,786,635				1,748,536					
Total	\$	40,365,855	\$	26,775,503	\$	7,211,998	\$	4,783,865			

The County's contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending December 31, 2025. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as shown below:

	 ERS	S	
	Governmental	Business-type	
Year Ending December 31,	 Activites		Activites
2025	\$ (10,533,812)	\$	(1,882,280)
2026	7,713,585		1,378,335
2027	12,901,174		2,305,302
2028	(6,277,230)		(1,121,760)

Actuarial Assumptions—The total pension liability as of the measurement date was determined by using actuarial valuations as noted in the table below, with update procedures used to roll forward the total pension liability to the measurement date. The actuarial valuations used the actuarial assumptions presented below:

	ERS
Measurement date	March 31, 2024
Actuarial valuation date	April 1, 2023
Interest rate	5.9%
Salary scale	4.4%
Decrement tables	April 1, 2015-
	March 31, 2020
Inflation rate	2.9%
Cost-of-living adjustments	1.5%

Annuitant mortality rates are based on April 1, 2015 – March 31, 2020 System's experience with adjustments for mortality improvements based on Society of Actuaries' Scale MP-2021. The actuarial assumptions used in the April 1, 2023 valuation are based on the results of an actuarial experience study for the period April 1, 2015 – March 31, 2020.

The long-term rate of return on pension plan investments was determined using a building block method in which best estimate ranges of expected future real rates of return (expected returns net of investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long term expected rate of return by weighting the expected future real rates of return by each the target asset allocation percentage and by adding expected inflation. Best estimates of the arithmetic real rates of return for each major asset class included in the target asset allocation are summarized in the table below:

		ERS		
		Long-Term Expected		
	Target Allocation	Real Rate of Return		
Measurement date	Marc	h 31, 2024		
Asset class:				
Domestic equities	32.0 %	4.0 %		
International equities	15.0	6.7		
Private equity	10.0	7.3		
Real estate	9.0	4.6		
Opportunistics/Absolute return strategies	3.0	5.3		
Credit	4.0	5.4		
Real assets	3.0	5.8		
Fixed income	23.0	1.5		
Cash	1.0	0.3		
Total	100 %			

Discount Rate—The discount rate used to calculate the total pension liability was 5.9%. The projection of cash flows used to determine the discount rate assumes that contributions from plan members will be made at the current contribution rates and that contributions from employers will be made at statutorily required rates, actuarially. Based upon the assumptions, the Systems' fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore the long

term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Proportionate Share of the Net Pension Liability to the Discount Rate Assumption—The chart below presents the County's proportionate share of the net pension liability calculated using the discount rate of 5.9%, as well as what the County's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one percentage-point lower (4.9%) or one percentage-point higher (6.9%) than the current assumption.

ERS		Decrease (4.9%)	 Assumption (5.9%)	Increase (6.9%)
Employer's proportionate share of the net pension liability/(asset) for: Governmental activities	s	132,929,508	\$ 42 656 880	\$ (33,432,973)
Business-type activites	\$	25,130,309	7,621,325	\$ (6,325,530)

Pension Plan Fiduciary Net Position—The components of the current-year net pension liability/(asset) of the employers as of the respective valuation dates, were as follows:

		(Dollars in
		Thousands)
Valuation date	A	April 1, 2023
Employers' total pension liability	\$	240,696,851
Plan fiduciary net position		225,972,801
Employers' net pension liability	\$	14,724,050
System fiduciary net position as a percentage		
of total pension liability		93.9%

Discretely Presented Component Units

i) Broome Community College

Plan Description and Benefits Provided

Employees' Retirement System—The College participates in the ERS. The plan description is the same as disclosed previously within this footnote.

Teachers' Retirement System—The College participates in the New York State Teachers' Retirement System ("TRS"). This is a cost-sharing multiple-employer retirement system. TRS provides retirement benefits as well as death and disability benefits to plan members and beneficiaries as authorized by the Education Law and Retirement and the New York State Retirement and Social Security Law ("NYSRSSL"). TRS is governed by a 9 member Board of Trustees. TRS benefits are established under New York State Law. Membership is mandatory and automatic for all full-time teachers, teaching assistants, guidance counselors and administrators employed in New York State Public Schools and BOCES who elect to participate in TRS. Once a public employer elects to participate in TRS, the election is irrevocable. The New York State Constitution provides that pension membership is a contractual relationship and plan benefits cannot be diminished or impaired. Benefits can be changed for future members only by enactment of a State statute. Additional information regarding TRS may be obtained by

writing to the New York State Teachers' Retirement System, 10 Corporate Woods Drive, Albany, NY 12211-2395 or by referring to the NYSSTR Comprehensive Annual Financial Report which can be found on TRS' website at www.nystrs.org.

Plan members who joined the TRS before July 27, 1976, are not required to make contributions. Those joining after July 27, 1976 are required to contribute two percent (2.0%) to three percent (3.0%) of their annual salary. Employees in the System more than ten years are no longer required to contribute. Pursuant to Article 11 of the Education Law, rates are established annually by the New York State Teachers' Retirement Board.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions—At August 31, 2024, the College reported the following liability/(asset) for its proportionate share of the net pension liability/(asset) for each of the Systems. The net pension liability/(asset) was measured as of March 31, 2024 for ERS and June 30, 2024 for TRS. The total pension liability/(asset) used to calculate the net pension liability was determined by an actuarial valuation as of April 1, 2023 for ERS and June 30, 2023 for TRS. The College's proportion of the net pension liability/(asset) was based on a projection of the College's long-term share of contributions to the Systems relative to the projected contributions of all participating members, actuarially determined. This information was provided by ERS and TRS in reports provided to the College.

		TRS		ERS
Measurement date	Ju	ine 30, 2024	M	arch 31, 2024
Net pension liability	\$	(1,183,845)	\$	6,255,256
The College's portion of the Plan's				
total net pension liability		0.0396780%		0.0424613%

For the year ended August 31, 2024, the College recognized pension expense of \$702,027 and \$2,469,307 for TRS and ERS, respectively. At August 31, 2024, the College reported deferred outflows of resources and deferred inflows of resources related to pensions from the sources shown below:

	Deferred Outflows of Resources				Deferred Inflows of Resources			
		TRS		ERS		TRS		ERS
Differences between expected and								
actual experiences of economic and demographic assumptions	\$	1,274,784	\$	2,014,813	\$	-	\$	170,564
Changes in assumptions		708,179		2,364,972		119,122		-
Net difference between projected and actual earnings on pension plan investments		-		_		1,315,353		3,055,659
Changes in proportion and differences between the College's contributions								
and proportionate share of contributions		226,988		104,388		114,589		700,169
College contributions subsequent								
to the measurement date		145,563		738,567		-		-
Total	\$	2,355,514	\$	5,222,740	\$	1,549,064	\$	3,926,392

The College's contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending August 31, 2025. Other amounts reported as deferred inflows of resources and deferred outflows of resources related to ERS and TRS will be recognized as pension expense as shown below.

Year Ending August 31,	 TRS		ERS
2025	\$ (560,226)	\$	(1,373,882)
2026	1,487,716		1,006,051
2027	(207,909)		1,682,647
2028	(263,203)		(757,035)
2029	141,203		-
Thereafter	63,306		-

Actuarial Assumptions—The pension liabilities as of the measurement dates were determined by using actuarial valuation dates as noted below with update procedures used to roll forward the total pension liabilities to the respective measurement dates. The actuarial valuations used the following actuarial assumptions:

	TRS
Measurement date	June 30, 2024
Actuarial valuation date	June 30, 2023
Interest rate	6.95%
Salary scale	1.95%-5.18%
Decrement tables	July 1, 2015 -
	June 30, 2020
Inflation rate	2.4%
Cost-of-living adjustment	1.3%

For ERS, the long-term rate of return on pension plan investments is the same as disclosed within the County's primary government section of this footnote.

For TRS, annuitant mortality rates are based on July 1, 2015 – June 30, 2020 System experience with adjustments for mortality improvements based on Society of Actuaries Scale MP2021, applied on a generational basis. The actuarial assumptions used in the June 30, 2023 valuation are based on the results of an actuarial experience study for the period July 1, 2015 – June 30, 2020.

The long-term expected rate of return on pension plan investments was determined in accordance with Actuarial Standards of Practice ("ASOP") No. 27, Selection of Economic Assumptions for Measuring Pension Obligations. ASOP No. 27 provides guidance on the selection of an appropriate assumed investment rate of return. Consideration was given to expected future real rates of return (expected returns, net of pension plan investment expenses and inflation) for each major asset class as well as historical investment data and plan performance. Best estimates of the arithmetic real rates of return for each major asset class included in the target asset allocation are summarized on the following page.

zeng rem zapec

Long-Term Expected

Discount Rate—The discount rate used to calculate the total pension liability was 6.95% for TRS and 5.90% for ERS. The projection of cash flows used to determine the discount rate assumes that contributions from plan members will be made at the current contribution rates and that contributions from employers will be made at statutorily required rates, actuarially. Based upon the assumptions, the System's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Proportionate Share of the Net Pension Liability to the Discount Rate Assumption— The charts below presents the College's proportionate share of the net pension liability calculated using the discount rate of 6.95% for TRS and 5.90% for ERS, as well as what the College's proportionate share of the net pension liability would be if they were calculated using a discount rate that is one percentage-point lower (5.95% for TRS and 4.90% for ERS) or one percentage-point higher (7.95% for TRS and 6.90% for ERS) than the current assumption.

	1%		Current		1%
	Decrease		Assumption		Increase
TRS	 (5.95%)		(6.95%)		(7.95%)
Employer's proportionate share					
of the net pension liability/(asset)	\$ 5,468,248	\$	(1,183,845)	\$	(6,778,434)
	1%		Current		1%

System fiduciary net position as a		
percentage of total pension liability		102.1%

9. OTHER POSTEMPLOYMENT BENEFITS ("OPEB") OBLIGATION

Plan Description—In addition to providing pension benefits, the County provides health insurance coverage and/or payment for fractional values of unused sick leave to eligible retired employees through a single -employer plan. Substantially all the county's full-time employees may become eligible for these benefits upon retirement. The value of the employee's unused compensatory time is used as the basis for the County's liability. The County is obligated to pay such benefits because of union contracts and County Legislature rules and regulation for nonunion employees. Health care benefits are provided through insurance companies whose premiums are based on the benefits paid during the year.

Employees Covered by Benefit Terms—As of the January 1, 2023 valuation date, the following employees were covered by the benefit terms:

Active employees	1,369
Inactive employees or beneficiaries currently receiving benefit payments	1,266
Total	2,635

Under GASB Statement No. 75, the total OPEB liability represents the sum of expected future benefit payments which may be attributed to past service (or "earned"), discounted to the end of the fiscal year using the current discount rate. The total OPEB liability is analogous to the Unfunded Actuarial Accrued Liability ("UAAL") under GASB Statement No. 45.

Total OPEB Liability

The County's total OPEB liability as of December 31, 2024 for governmental and business-type activities of \$142,451,729 and \$27,098,810, respectively, was measured and determined by an actuarial valuation as of January 1, 2023.

Actuarial Methods and Assumptions—Calculations are based on the types of benefits provided under the terms of the substantive plan, the plan as understood by the employer and the plan members, at the time of the valuation and on the pattern of cost sharing between the employer and plan members. The projection of benefits does not incorporate the potential effect of a change in the pattern of cost sharing between the employer and plan members in the future. Calculations reflect a long-term perspective, so methods and assumptions used include techniques that are designed to reduce short-term volatility.

In the January 1, 2023 actuarial valuation, the entry age normal actuarial cost method, over a level percent of pay was used. The single discount rate changed from 3.77% effective December 31, 2023 to 4.16% effective December 31, 2024. The salary scale assumed to increase at 2.5% per year. The sex-distinct and

job category-specific headcount-weighted Pub-2010 Public Retirement Plans Mortality Tables for employees, healthy retirees, and contingent survivors, adjusted for mortality improvements with scale MP-2021 on a generational basis, were used for mortality rates. The 2022 New York State Employees' Retirement System rates were used for retirement rates. This rate was based on the April 1, 2021 to March 31, 2022 experience study released by the Retirement System's actuary and published in their August 2022 report. In order to estimate the change in the cost of healthcare, the actuaries healthcare cost trend rate used is 7.75%.

Changes in the Total OPEB Liability—The following table presents the changes to the total OPEB liability during the fiscal year, by source:

	Total OPEB Liability				
	Governmental			usiness-type	
	Activities			Activities	
Balances at December 31, 2023	\$	124,513,306	\$	23,151,164	
Changes for the year:					
Service cost		4,135,784		579,391	
Interest		4,587,729		830,926	
Differences between expected and actual experience		28,015,461		6,852,949	
Changes in assumptions and other inputs		(13,698,501)		(3,155,633)	
Changes in benefit terms		8,815,202		2,220,181	
Benefit payments		(13,917,252)		(3,380,168)	
Net changes		17,938,423		3,947,646	
Balances at December 31, 2024	\$	142,451,729	\$	27,098,810	

Sensitivity of the Total OPEB Liability to the Change in the Discount Rate and Healthcare Cost Trend Rate—The discount rate assumption can have an impact on the total OPEB liability. The following table presents the effect of 1% change in the discount rate assumption would have on the total OPEB liability:

	1%		Current		1%
	Decrease		Discount Rate		Increase
	(3.16%)		(4.16%)		(5.16%)
Governmental activities:					
Total OPEB liability	\$ 158,419,744	\$	142,451,729	\$	128,743,904
Business-type activities:					
Total OPEB liability	\$ 29,878,547	\$	27,098,810	\$	24,659,688

Additionally, healthcare costs can be subject to considerable volatility over time. The table below presents the effect on the total OPEB liability of a 1% change in current (7.75 %) healthcare cost trend rates.

			Healthcare	
	19	½	Cost Trend	1%
	Decr	ease	Rates	Increase
	(6.7)	5%)	(7.75%)	(8.75%)
Governmental activities:				
Total OPEB liability	\$ 124,5	348,259 \$	142,451,729	\$ 164,369,923
Business-type activities:				
Total OPEB liability	\$ 24,0	000,727 \$	27,098,810	\$ 30,838,286

Funding Policy—Authorization for the County to pay retiree health insurance premiums was enacted by through union contracts, which are approved by the County Legislature. Retirees that meet the age and years of service requirements are not required to contribute to postretirement healthcare benefits. Additionally, retirees in Management Union groups are not required to contribute to postretirement dental and vision benefits. Spouses receive the same benefits as the retiree. Surviving spouses are permitted to continue coverage at no cost and at the cost of 100% the premium for Management Union groups and non-Management Union groups, respectively.

OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to **OPEB**—The County reports deferred outflows of resources and deferred inflows of resources due to differences during the measurement period between the employer's contributions and its proportionate share of the total of certain contributions from employers included in the collective total OPEB liability. The table below presents the County's deferred outflows of resources and deferred inflows of resources at December 31, 2024.

	Government	al A	ctivities	Business-type Activities				
Deferred Outflows		Deferred Outflows Deferred Inflows I		Deferred Outflows		Def	erred Inflows	
of Resources		of Resources		of Resources		of Resources		
\$	25,868,659	\$	43,251,819	\$	6,423,541	\$	9,297,013	
	16,916,698		34,933,636		2,527,004		7,266,760	
\$	42,785,357	\$	78,185,455	\$	8,950,545	\$	16,563,773	
		Deferred Outflows of Resources \$ 25,868,659 16,916,698	Deferred Outflows of Resources Deferred Outflows of Resources \$ 25,868,659 \$ 16,916,698	Deferred Outflows of Resources Deferred Inflows of Resources \$ 25,868,659 \$ 43,251,819 16,916,698 34,933,636	Deferred Outflows of Resources Deferred Inflows of Resources Deferred Inflows of Resources Deferred Inflows of Resources \$ 25,868,659 \$ 43,251,819 \$ 16,916,698 34,933,636 \$ 34,933,636	Deferred Outflows of Resources Deferred Inflows of Resources Deferred Outflows of Resources \$ 25,868,659 \$ 43,251,819 \$ 6,423,541 16,916,698 34,933,636 2,527,004	Deferred Outflows of Resources Deferred Inflows of Resources Deferred Outflows of Resources Deferred Outflows of Resources Deferred Outflows of Resources \$ 25,868,659 \$ 43,251,819 \$ 6,423,541 \$ 16,916,698 34,933,636 2,527,004	

The County's contributions subsequent to the measurement date will be recognized as a reduction of the total OPEB liability in the year ending December 31, 2025. Other amounts reported as deferred outflows of resources related to OPEB will be recognized in OPEB expense as follows:

Year Ending	Governmental		Business-type
December 31,	Activities		Activities
2025	\$	(12,695,926)	\$ (3,817,591)

Discretely Presented Component Units

i) Broome Community College

Plan Description

The College's Retiree Group Health Benefits Program is a single employer defined benefit Other Postemployment Benefit Plan (OPEB). The Program provides for continuation of Retiree Group Health Benefits for certain retirees and their spouses and can be amended by action of the College subject to applicable collective bargaining and employment agreements. The Program does not issue a stand-alone financial report as there are no legally segregated assets for the sole purpose of paying benefits under the Program. There are no assets accumulated in a trust that meets the criteria of GASB 75, paragraph 4.

The College funds the cost of providing health care insurance to its retirees and spouses on a pay as you go basis. The benefit terms are dependent on which bargaining unit or employment contract each employee falls under. The specifics of each contract are on file at the College offices and are available upon request.

Employees Covered by Benefit Terms—At August 31, 2024, the number of employees covered by the College's OPEB plan:

Active employees	363
Inactive employees or beneficiaries currently receiving benefit payments	338
Total	701

Total OPEB Liability

The College's total OPEB liability of \$37,618,551 was measured as of December 31, 2023 and was determined by an actuarial valuation as of December 31, 2022.

Actuarial Methods and Assumptions—The total OPEB liability in the December 31, 2022 actuarial valuation was determined using an inflation rate of 2.50%, a payroll growth rate of 2.50%, and a discount rate of 3.77%, applied to all periods included in the measurement. The discount rate was based on the Fidelity General Obligation 20-Year AA Municipal Bond Index. Mortality was based on the headcount-weighted RPH-2014 tables to the headcount-weighted Pub-2010 tables. The mortality improvement scale was revised from MP-2020 to MP-2021 on a generational basis. This assumption was based on a review of published mortality tables and the demographics of the Plan.

Changes in the Total OPEB Liability—The following table presents the changes to the total OPEB liability during the fiscal year, by source:

		Total
	OI	PEB Liability
Balance at August 31, 2023	\$	33,526,951
Changes for the year:		
Service cost		1,476,350
Interest		1,340,812
Differences between expected and actual experience		1,937,965
Changes of assumptions		3,130,153
Benefit payments		(3,793,680)
Net changes		4,091,600
Balance at August 31, 2024	\$	37,618,551

Sensitivity of the Total OPEB Liability to the Change in the Discount Rate—The following table presents the total OPEB liability of the College, as well as what the College's total OPEB liability would be if it calculated using a discount rate that is 1% lower or 1% higher than the current discount rate:

	1%		Current	1%
	Decrease	D	iscount Rate	Increase
	 (2.77%)		(3.77%)	 (4.77%)
Total OPEB liability	\$ 42,626,182	\$	37,618,551	\$ 33,453,332

Sensitivity of the Total OPEB Liability to the Change in the Healthcare Cost Trend Rate—The following table presents the total OPEB liability of the College, as well as what the College's total OPEB liability would be if it calculated using a healthcare cost trend rate that is 1% lower or 1% higher than the current healthcare cost trend rate:

		Current	
	1%	Healthcare	1%
	Decrease	Trend Rate	Increase
	(6.75/3.04%)	(7.75/4.04%)	(8.75/5.04%)
Total OPEB liability	\$ 31,944,624	\$ 37,618,551	\$ 44,762,789

Funding Policy—Contributions by the primary government may vary according to length of service. The cost of providing postemployment health care benefits is shared between the College and the retired employee. Substantially all employees may become eligible for those benefits if they reach normal retirement age and length of service requirement while working for these entities. The cost of retiree health care benefits is recognized as an expense as premiums are paid. For the year ended August 31, 2024, the recognized OPEB expense was \$3,288,599.

OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB—At August 31, 2024, the College reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

]	Deferred		Deferred		
(Outflows		Inflows		
of	Resources	of Resources			
\$	2,287,075	\$	7,061,065		
	5,304,658		7,570,542		
	1,218,532				
\$	8,810,265	\$	14,631,607		
	of \$	5,304,658 1,218,532	Outflows of Resources \$ 2,287,075 \$ 5,304,658 1,218,532		

The College's contributions subsequent to the measurement date will be recognized as a reduction of the total OPEB liability in the year ending August 31, 2025. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Year Ending August 31,	
2025	\$ (3,757,885)
2026	(2,692,336)
2027	(793,170)
2029	(411,071)
2029	614,588

10. RISK MANAGEMENT

The County is exposed to various risks of loss related to property damage and destruction of assets, vehicle liability, injuries to employees, and unemployment insurance. The County assumes liability for most risk including property damage and personal injury liability. The County purchases the following policies: Property Insurance with a self-retention of \$50,000 and a limit of \$200,000,000, Aviation

Insurance with a coverage limit of \$100,000,000, a Crime Policy with coverage limits of \$5 million per employee and \$5 million for Director of Office of Management and Budget with a self-retention of \$1,000, and Cyber Insurance coverage of \$3,000,000 with a self-retention of \$25,000. All other liability claims are handled internally.

General Liability—The Department of Risk and Insurance has a claims manager who handles all in house and third-party claims. Examples of third-party claims include claims involving, county roads maintained, snow removal, high grass, etc. The claims manager will receive the claim report once it is filed and will investigate all aspects of the claim to ascertain who's liable. The claims manager handles the claim from start to finish. Initially, large claims will begin in the risk department and eventually end up in law. Law and risk will then work together to resolve the claim. From time to time, adjusters are used to evaluate the damage of property. For example, if a police car were to be in an accident, the County would call their third-party vendor to complete an adjustment in order to assess the damage.

In accordance with GASB, the reporting of activity and the Reserve for Fund Balance for General Liability is reported within the General Fund. Since the claims portion is uncertain as to payment date (and many payments do not occur until several years in the future), the liability will be recorded in the Government-wide Financial Statements (Governmental Activities).

Judgments and claims are recorded when it is probable that an asset has been impaired, or a liability has been incurred and the amount of loss can be reasonably estimated. All revenues and expenses, including adjustments for non-incremental claim expenses related to the County's General Liability Self-Insurance plan is recorded in an Internal Service Fund. As of December 31, 2024, there were claims of \$2,484,200 accrued, of which \$1,154,000 are due within one year.

Workers' Compensation Liability—The County operates a county-wide self-insurance plan, established to pay claims and judgements for worker's compensation. When an incident occurs, forms will be completed by the employees, signed by department heads and submitted to the Risk and Insurance Department. There is a packet for just incidents and a packet to be filled out if there was injury that needed to be treated. The County contracts out with a third-party administrator who processes workers' compensation claims under the general supervision of the Department of Risk Management. The Plan contracts with an external nurse case management firm to provide medical management and treatment assistance for the injured worker.

In addition to the County, the Plan includes eleven towns and three villages within the County. Note that these municipalities are billed separately for this service. Local Law 8-1996 requires each participant's assessment to be calculated as follows: 65.0% of the assessment is based upon the ratio of the participant's 5 year paid claim average to the total 5 year paid claim average for all participants and 35.0% of the assessment is based upon the ratio of the participant's real property assessed valuation to the total assessed valuation of the County.

The County portion is charged back to departments quarterly. The net cost to the County is included in its annual tax levy. All revenue and expenses related to the Workers' Compensation Self-Insurance Plan have been recorded and presented as an internal service fund. Resolution 2012-326 which amends Local Law 76-8 was approved in 2012 to increase the workers compensation reserve to \$1,500,000. The reserve balance on December 31, 2024, was at the maximum level. Workers' compensation liability, inclusive of incurred but not reported claims, was \$2,681,827 on December 31, 2024.

A rate of return of 4.0% was used for the liability calculation. Workers' compensation liabilities relating to Enterprise and Internal Service funds are recorded when incurred and presented within the respective funds. These liabilities amounted to \$3,708,535 and \$0, respectively, on December 31, 2024. The

liability related to governmental funds and municipalities other than the County amounting to \$5,789,345 and \$2,680,098, respectively in the Workers' Compensation Fund, an internal service fund.

These self-insurance liabilities are presented at their present value and estimated using information on claims provided by the plan's third-party administrator. The liability of the County and other participants was determined based upon the amount of the outstanding long-term liability attributable to each. This does not necessarily correspond to the expected future contributions since they are based upon future payroll figures, future assessed real property valuations, and claims incurred. These are not readily determinable currently.

Health Insurance—The County offers three health insurance plans to its employees and retirees with at least 20 years of service. All plans are self-insured. The County has third-party nurse case managers and administrators who assist and answer questions for active members, pre-65 and post-65 members.

The County has implemented the use of Express-Scripts in order to lower costs for the County. In 2002, a retiree health plan amendment went into effect that affords the surviving spouses of former employees an opportunity to receive a health benefits premium reduction if they meet income guidelines. There is also an option for retiring employees to purchase "joint/survivor" protection for their spouses. As of December 31, 2024, there were 21 surviving spouses with 4 of them approved for the reduced premium.

The liabilities in the Health Insurance Fund, an internal service fund, are based upon individual case estimates for claims incurred but not reported at December 31, 2024. The estimated outstanding claims expected to be liquidated with future financial resources aggregate \$1,182,172 for health claims and \$397,549 for prescription drug costs presented in other current liabilities on December 31, 2024.

Unemployment Insurance—The County participates in a self-insurance plan, established to provide unemployment benefits to terminated County employees. The New York Labor Department acts as the third-party administrator, processing the unemployment claims.

The County portion is charged back to departments quarterly. The net cost to the County is included in its annual tax levy. All revenue and expenses related to the Unemployment Insurance have been recorded and are presented as an internal service fund.

The County's self-insurance accrued claims liabilities for the year ended December 31, 2024, were:

_		Governmental Activities								Business-type Activities							
	Liability (iability Current Year			Claim		Liability		Liability	Current Year			Claim	Liability

11. LEASE AND SBITA LIABILITIES

The County is a lessee for a noncancellable leases of various property and equipment and a subscriber of various information technology agreements Under GASB Statement No. 87, Leases, the County recognizes a lease liability and an intangible right-to-use lease asset (lease asset) in the financial statements. Under GASB Statement No. 96, Subscription Based Information Technology Agreements, the County recognizes a SBITA liability and SBITA asset in the government-wide financial statements. The County recognizes lease and SBITA liabilities if they are considered significant, individually or in the aggregated, to the financial statements.

At the commencement of a lease/SBITA, the County initially measures the lease/SBITA liability at the present value of payments expected to be made during the lease/SBITA term. Subsequently, the lease/SBITA liability is reduced by the principal portion of the lease/SBITA payments made. The lease/SBITA asset is initially measured as the initial amount of the lease/SBITA liability, adjusted for lease/SBITA payments made at or before the lease/SBITA commencement date, plus certain initial direct costs. Subsequently, the lease/SBITA asset is amortized on a straight-line basis over its useful life.

Key estimates and judgments related to leases/SBITAs include how the County determines (1) the discount rate it uses to discount the expected lease/SBITA payments to present value, (2) lease/SBITA term, and (3) lease/SBITA payments.

- The County uses the interest rates charged by the lessor as the discount rate. When the interest rate charged by the lessor is not provided, the County generally uses its estimated incremental borrowing rate as the discount rate for leases/SBITAs.
- The lease/SBITA terms include the noncancellable period of the lease/SBITA. Lease/SBITA payments included in the measurement of the liability are composed of fixed payments and purchase option price that the County is reasonably certain to exercise.

The County monitors changes in circumstances that would require a remeasurement of its lease/SBITA and will remeasure the asset and liability if certain changes occur that are expected to significantly affect the amount of the liability.

Lease/SBITA assets are reported with other capital assets and lease/SBITA liabilities are reported with long-term debt on the statement of net position.

During previous years, the County entered into long-term, lease agreements as the lessee for the acquisition and use of various property and equipment. As of December 31, 2024, the value of the lease liabilities was \$14,993,782 for governmental activities. The County is required to make annual principal and interest payments ranging from \$52,277 to \$943,984. The leases have interest rates ranging between 1.5% and 4.0%. The value of the right-to-use lease assets as of the end of the current fiscal year was \$20,379,307 and had accumulated amortization of \$6,612,476 for governmental activities.

The future principal and interest payments as of December 31, 2024, were as follows:

Year Ending	Governmental Activities											
December 31,		Principal	Interest									
2025	\$	1,809,125	\$	364,588								
2026		1,910,250		304,419								
2027		2,014,093		242,314								
2028		1,098,937		178,206								
2029		1,386,732		34,308								
2030-2034		6,198,963		538,890								
2035		575,682		8,767								
Total	\$	14,993,782	\$	1,671,492								

At December 31, 2024, the County maintained certain subscription based information technology agreements. As a result of the implementation of the GASB Statement No. 96, *Subscription Based Information Technology Agreements*, the County now reports those as SBITA liabilities. As of December 31, 2024, the value of the SBITA liabilities was \$723,949. The County is required to make annual principal and interest payments ranging from \$9,171 to \$481,895. The agreements have interest rates ranging from 3.25% to 8.25%. The value of the right-to-use SBITA assets as of the end of the current fiscal year was \$3,999,580 and had accumulated amortization of \$2,528,435.

The future principal and interest payments related to the subscription liabilities for governmental activities as of December 31, 2024, were as follows:

Dec	ember 31,	I	Principal	Interest				
	2025	\$	373,726	\$	39,286			
	2026		104,546		26,744

12. SHORT-TERM DEBT

Liabilities for bond anticipation notes ("BANs") are generally accounted for in the Capital Projects Fund. Principal payments on BANs must be made annually. State law requires that BANs issued for capital purposes be converted to long-term obligations within five years after the original issue date. However, BANs used for assessable improvement projects may be renewed for periods equivalent to the life of the permanent financing provided that annual reductions of principal are made. The table below is a summary of the Town's short-term debt for the year ended December 31, 2024:

	Issued	Maturity	Interest Rate	Balance 1/1/2024	Issues	Redemptions	Balance 12/31/2024
Bond anticipation notes:							
Governmental Activites:

13. LONG-TERM LIABILITIES

In the government-wide financial statements, long-term debt and other long-term obligations are reported as noncurrent liabilities in the statement of net position.

In the fund financial statements, governmental funds recognize bond premiums and discounts during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources, while discounts on debt issuances are reported as other financing uses. Further, the unmatured principal of general long-term debt does not require current appropriations and expenditure of governmental fund financial resources.

The County's outstanding long-term liabilities include bonds payable, early retirement incentive costs, landfill capping liability, workers' compensation liability, compensated absences, liability and casualty, lease liability, subscription liability, installment purchase debt, other postemployment benefits ("OPEB") obligation, and net pension liability. A summary of changes in the County's long-term liabilities for the year ended December 31, 2024 is presented on the following page.

	Balance 1/1/2024			Increases		Decreases		Balance 12/31/2024	Due Within One Year		
Governmental activities:

^{*(}Additions/reductions to compensated absences and the net pension liability are shown net of reductions/additions.)

Serial Bonds—General obligation bonds of the County (not including the BTASC debt) are issued principally as serial bonds, which are due at various times through 2035. The bonds are issued primarily to finance acquisition or construction of capital facilities. General obligation bonds have been issued for governmental activities. General obligation bonds are direct obligations and pledge the full faith and credit of the County. Principal and interest payments are included in the expenditures of the General Fund.

A summary of additions and payments for the year ended December 31, 2024 is shown below:

	Maturity Interest Balance								
Description	Date	Rate (%)	1/1/2024	Increases	Decreases	12/31/2024

BTASC Debt—On August 8, 2001, BTASC along with six other counties, created a trust known as the New York Counties Tobacco Trust II (NYCTT II). The trust issued \$215,220,000 in aggregate principal Tobacco Settlement Pass-Through Bonds Series 2001. BTASC issued \$50,620,000 bearing interest rates ranging from 5% to 6%. The debt was payable solely from and secured by pledged Tobacco Settlement Rights and investment earnings on amounts on deposit. On September 22, 2016, BTASC issued \$44,190,000 of Tobacco Settlement Asset Backed Refunding Bonds, Series 2016. The proceeds of the \$24,555,000 Series A1 bonds were used to currently refund \$24,555,000 in 2001 Bonds. Pursuant to the Purchase and Exchange agreement between BTASC and the 2001 Bond Holders, at closing, the Bond Holders tendered \$24,555,000 in 2001 Bonds in exchange for \$24,555,000 in Series A1 bonds. The Series A1 interest rates and final maturity dates were the same as the tendered 2001 Bonds. The proceeds of the \$19,635,000 Series A2 bonds, in addition to certain other funds as described below, were used to currently refund \$8,845,000 in 2001 Bonds and currently refund \$43,411,883 in principal and accreted interest of the 2005 bonds. BTASC deposited \$9,043,873 in an irrevocable escrow account to redeem, on October 24, 2016, \$8,845,000 in 2001 Bonds plus accrued interest due thereon. Additionally, \$17,658,127 of bond proceeds and other funds noted below, were used to completely defease the S1, S2, and S4 series of the 2015 Bonds. At closing, \$5,488,881 was used to redeem at 101% the accreted value of \$5,431,887 (\$2,853,273 in principal and \$2,578,613 in accreted interest) of the S1 series. BTASC used \$12,685,591 of bond proceeds and other funds noted below, to purchase at negotiated prices pursuant to a Purchase and Exchange Agreement between the bond holders and BTASC, all of the S2 and S4 Bonds. BTASC was able to defease at closing \$24,016,093 of accreted value (\$11,110,630 in principal and \$12,905,463 in accreted interest) of the S2 and S3 bonds.

The Series 2016 bonds and additional consideration received as a result of the refunding transaction were used to redeem or exchange all of BTASC's Series 2001 Term Bonds outstanding in the aggregate principal amount of \$76,811,883. As a result, the Series 2001 Bonds have been removed from the financial statements. Additionally, the Series 2016 Bonds' proceeds were used to cancel the related NYCTT Subordinate Bonds component \$1, \$2 and \$4 of the 2015 bonds.

On November 29, 2005, BTASC participated in New York Counties Tobacco Trust V ("NYCTT"), along with 23 other New York County Tobacco Corporations, and issued Tobacco Settlement Pass-Through Bonds—Subordinate Turbo Capital Appreciation Bonds ("CABs") in various series for the purpose of securitizing additional future tobacco settlement revenues. The net proceeds of the 2005 series amounted to \$2,276,579, and were used to purchase tobacco settlement rights from the County.

The issuance has three components and payments on the Subordinate Turbo CABs are subordinate to the Series 2005 S-3 Bonds.

The payment of Series 2016 A1 and A2 and Subordinate Turbo Bonds is dependent on the receipt of TSRs. The amount of TSRs actually collected is dependent on many factors including cigarette consumption and the continued operations of the OPMs. Such bonds are secured by and payable solely from TSRs and investment earnings pledged under the Bond Indenture and amounts established and held in accordance with Bond Indenture.

In the event sufficient funds are not available to meet planned payment maturities, rated maturity dates will be used.

Changes in Tobacco Settlement Bonds for the year ended December 31, 2024 are as follows:

	Year	Beginning				Ending	Amounts			
	of			Balance				Balance	Due '	Within
Description	Maturity	Yield		1/1/2024	Ad	ditions	 Deletions	 12/31/2024	One	Year
Tobacco Settlement Bonds:										
Series 2016 A-1	2035	various	\$	18,655,000	\$	-	\$ 985,000	\$ 17,670,000	\$ 6,6	645,000
Series 2016 A-2	2035	various		19,635,000		-	 	 19,635,000		
Total Tobacco Settlement Bonds				38,290,000		-	985,000	37,305,000	6,6	645,000
Plus: Bond premium				3,582,146		-	 158,827	3,423,319	1	58,827
Net Tobacco Settlement Bonds			\$	41,872,146	\$		\$ 1,143,827	\$ 40,728,319	\$ 6,8	303,827

Amortization of Bond Premium—Bond premiums are being amortized on a straight-line method over the life of the bonds. The unamortized bond premium as of December 31, 2024 was \$3,423,319.

BTASC debt service requirements based upon planned principal payments for Tobacco Settlement Bonds, Series 2016 A-1 and A-2 are presented below.

Year ending December 31,	Principal	Interest		Total			
Beechieer 31,	 Timerpur	 Interest	1000				
2025	\$ 6,645,000	\$ 1,803,903	\$	8,448,903			
2026	2,240,000	1,551,288		3,791,288			
2027	2,385,000	1,418,318		3,803,318			
2028	2,545,000	1,276,581		3,821,581			
2029	2,710,000	1,125,500		3,835,500			
2030-2034	16,145,000	3,154,044		19,299,044			
2035	4,635,000	 231,751		4,866,751			
Total	\$ 37,305,000	\$ 10,561,385	\$	47,866,385			

Subordinate Turbo CABs—Interest on the Subordinate Turbo CABs is compounded semi-annually on June 1 and December 1, but is not payable until bond maturity. Interest accretes until both principal and accreted interest are paid. Future interest accretion has been recorded as bond discount and amortized as the current interest accretes. The accreted interest on the Subordinate CABs is reflected within the Subordinate CABs payable liability.

A summary of the Subordinate Turbo CABs net bond balance activity for the year ended December 31, 2024 follows:

]	Beginning	Aı	nnual Net	T	urbo		Ending
	Interest	Ori	ginal		Balance]	Interest	Rede	mption		Balance
	Rate	Principal			1/1/2024	A	ccretion	Pay	ments	1	2/31/2024
Subordinate Turbo CABs											
2005 Bonds S-3 Series	6.00 - 7.15%	\$ 2,2	276,579	\$	7,699,986	\$	536,080	\$	_	\$	8,236,066

Redemption of the Subordinate CABs as outlined in the original official statement totals \$2,276,579 with interest ranging from 6.00% to 7.15%. During the year ended December 31, 2024 funds were not available to make redemption payments. Any debt service amounts not paid in accordance with the Subordinate Turbo CABs redemption payments schedule will be due and payable on the June 1, 2055 maturity date.

Early Retirement Incentive Costs—These represent health insurance costs that the County will incur for retirees, up to a capped amount. These benefits were part of early retirement packages offered in 2011, 2012 and again in 2013. No early retirement incentives were offered in 2024 and the outstanding balance at December 31, 2024 totaled \$149,087 and \$38,126 for governmental and business-type activities, respectively.

Landfill Capping Liability—This liability represents the future costs associated with the capping and long-term maintenance of the County's Nanticoke Landfill. Estimated capping and long-term maintenance costs associated with Sections II and III of the Nanticoke Landfill are included in the business-type activities and the Solid Waste Management Fund. Capping and long-term maintenance costs are components of the tipping fee. The liability reported at December 31, 2024 totaled \$13,687,600, of which \$626,600 is due within one year.

Workers' Compensation—As explained in Note 10, the County is self-insured for workers' compensation. At December 31, 2024, the County reported \$9,905,234 and \$3,708,535 of workers' compensation liability within the governmental and business-type activities, respectively.

Compensated Absences—As explained in Note 1, compensated absences are recorded in the government-wide and proprietary fund financial statements. Governmental funds report only matured compensated absences payable to currently terminating employees which are included in wages and benefits. The payment of compensated absences is dependent on many factors and, therefore, cannot be reasonably estimated as to future timing of payment. The annual budgets of operating funds provide for such as amounts become payable. The values recorded at December 31, 2024 for governmental and business-type activities are \$9,905,234 and \$1,431,759, respectively.

Liability and Casualty—As explained in Note 10, the County is self-insured for general liabilities. At December 31, 2024, the County reported \$2,484,200 as general claims, of which \$1,154,000 is considered due within one year. Estimated long-term contingent loss liabilities in the governmental fund types have been reported as long-term liabilities in the government-wide financial statements.

The proprietary funds have no loss contingency liability other than workers' compensation, which is only recognized when invoiced from the County.

Lease liability—The County has entered into long-term leases for property and equipment. The outstanding balance at December 31, 2024 was \$14,993,782 for governmental activities. Refer to Note 11 for additional information related to the County's leases.

SBITA liability—The County has entered into a long-term subscription based information technology agreements. The outstanding balance at December 31, 2023 was \$723,949 for governmental activities. Refer to Note 11 for additional information related to the County's subscription liabilities.

Installment Purchase Debt—During 2022, the County entered into an additional installment purchase contracts for the installation and maintenance of various radio systems. Total outstanding balance at December 31, 2024 was \$9,050,158.

The requirements of the installment purchase agreements are summarized below:

Year ending December 31,	_	
2025	\$	1,631,109
2026		1,631,109
2027		1,631,109
2028		1,631,109
2029		1,631,109
2030-2034		1,651,111
2035-2036		10,000
Total minimum lease payments		9,816,656
Less: amount representing imputed interest		(766,498)
Present value of minimum lease payments	\$	9,050,158

The assets acquired through the installment purchase debt are as follows:

	Governmental Activities
Assets:	
Land	\$ 90,011
Machinery and equipment	12,783,684
Less: Accumulated depreciation	(4,261,228)
Total	\$ 8,612,467

OPEB Obligation—As explained in Note 9, the County provides medical, dental, and life insurance benefits for retirees, spouses, and their covered dependents while contributing a portion of the expenses. The County's annual OPEB cost is measured as the portion of the present value of projected benefit payments to be provided to current active and inactive employees that is attributed to those employees' past periods of service (total OPEB liability), less the amount of the OPEB plan's fiduciary net position. The County's long-term OPEB obligation is estimated to be \$142,451,729 and \$27,098,810 at December 31, 2024 for governmental and business-type activities, respectively.

Net Pension Liability—The County reported liabilities of \$42,656,880 and \$7,621,325 within governmental and business-type activities for its proportionate share of the net pension liability for the Employees' Retirement System, respectively. Refer to Note 8 for additional information related to the County's net pension liability.

The following is a maturity schedule of the County's indebtedness:

14. NET POSITION AND FUND BALANCE

The government-wide financial statements utilize a net position presentation. Net position is categorized as net investment in capital assets, restricted and unrestricted.

• Net Investment in Capital Assets—This category groups all capital assets, including infrastructure, into one component of net position. Accumulated depreciation and the outstanding balances of debt that are attributable to the acquisition, construction or improvement of these assets reduce the balance in this category. A reconciliation of the County's governmental activities and business-type activities net investment in capital assets is presented on the following page.

	Governmental	l activities:
--	--------------	---------------

Capital assets, net of accumulated depreciation/amortization		\$	143,291,571
Related debt:			
Serial bonds issued for capital assets	(48,196,225)		
Bond anticipation notes	(61,412,925)		
Installment purchase debt	(9,050,158)		
Lease liability	(14,993,782)		
SBITA liability	(723,949)		
Capital Projects Fund accounts payable	(1,347,991)		
Unspent proceeds of debt	30,024,131		
Debt issued for capital assets			(105,700,899)
Net investment in capital assets—governmental activities		<u>\$</u>	37,590,672
Business-type activities:			
Capital assets, net of accumulated depreciation		\$	184,646,661
Related debt:			
Serial bonds issued for capital assets	(18,078,775)		
Bond anticipation notes	(51,928,656)		
Unspent proceeds of debt	5,197,472		
Debt issued for capital assets		_	(64,809,959)
Net investment in capital assets—business-type activities		\$	119,836,702

- **Restricted Net Position**—This category represents external restrictions imposed by creditors, grantors, contributors, or laws and regulations of other governments and restrictions imposed by law through constitutional provisions or enabling legislation.
- *Unrestricted Net Position*—This category represents net position of the County not restricted for any project or other purpose.

In the fund financial statements, nonspendable amounts represent net current financial resources that cannot be spent because they are either not in spendable form or legally or contractually required to be maintained intact. Nonspendable fund balance maintained by the County at December 31, 2024 is presented below.

- **Prepaid Items**—Represents amounts prepaid to the retirement system that are applicable to future accounting periods. The General Fund, BTASC and nonmajor Funds reported amounts of \$2,819,750, \$4,285 and \$203,494, respectively, at December 31, 2024.
- *Inventories*—Represents the portion of fund balance within the General Fund and nonmajor funds of \$410,176 and \$1,392,202, respectively, comprised of inventory and is nonspendable because inventory is not an available spendable resource.

In the fund financial statements, restricted fund balances are amounts constrained to specific purposes (such as creditors, grants, contributors, or laws and regulations of other governments) through constitutional provisions or enabling legislation. The following table presents restricted fund balances of the County as of December 31, 2024.

		Debt		
	General	Service	BTASC	
	Fund	 Fund	Fund	 Total
Stop-DWI	\$ 167,053	\$ -	\$ -	\$ 167,053
Debt service	-	1,457,501	3,126,080	4,583,581
Economic development	411,690	-	-	411,690
911 system costs	6,661,135	-	-	6,661,135
Handicapped parking programs	743	-	-	743
Tax stabilization	295,642	-	-	295,642
Occupancy tax	823,777	-	-	823,777
Veterans service programs	1,986,839	-	-	1,986,839
Traffic diversion	1,641,657	-	-	1,641,657
Other purposes	 1,938,652	 		1,938,652
Total restricted fund balance	\$ 13,927,188	\$ 1,457,501	\$ 3,126,080	\$ 18,510,769

- **Restricted for Stop-DWI**—Represents STOP DWI fees restricted to pay for road safety programs and equipment to combat the use and abuse of drugs and alcohol which eventually results in reducing the incidents of driving while intoxicated.
- **Restricted for Debt Service**—Represents reserves which will be used for the reduction of future debt service requirements.
- **Restricted for Economic Development**—Represents funds restricted to pay new economic development programs.
- Restricted for 911 System Costs—Represents funds restricted to pay for equipment or other uses that will aid in providing public safety services.
- Restricted for Handicapped Parking Programs—Represents reserves established to help provide additional handicapped parking spaces.
- **Restricted for Tax Stabilization**—Represents reserves established within the General Fund to lessen or prevent projected increases in the real property tax levy.
- **Restricted for Occupancy Tax**—Represents reserves established within the General Fund to lessen or prevent projected increases in occupancy tax.
- *Restricted for Veterans Service Programs*—Represents reserves established within the General Fund which will be used to pay for the future costs associated with veteran services.
- **Restricted for Traffic Diversion**—Represents reserves established within the General Fund restricted to pay for additional road safety programs.
- **Restricted for Other Purposes**—Represents reserves established within the General Fund and Nonmajor funds which have been accumulated and restricted by certain agreements.

In the fund financial statements, commitments are amounts that are subject to a purpose constraint imposed by a formal action of the County's highest level of decision-making authority. As of December 31, 2024, the County had no committed fund balance.

In the fund financial statements, assignments are not legally required segregations, but are subject to a purpose constraint that represents an intended use established by the County's Legislature, or by its designated body or official. The purpose of the assignment must be narrower than the purpose of the General Fund, and in funds other than the General Fund, assigned fund balance represents the residual amount of fund balance.

As of December 31, 2024, the County reported the following fund balances assignments:

	General	Nonmajor	
	Fund	Funds	Total
Encumbrances	\$10,168,366	\$ 226,255	\$10,394,621
Subsequent year's expenditures	8,794,559	719,101	9,513,660
Specific use	-	2,603,781	2,603,781
Future payment	13,704,581		13,704,581
Total net position	\$32,667,506	\$ 3,549,137	\$36,216,643

- Assigned to Encumbrances—Represents commitments related to unperformed contracts or purchase orders for goods or services.
- Assigned to Subsequent Year's Expenditures—Represents available fund balance being appropriated to meet expenditure requirements in the 2025 fiscal year.
- Assigned to Specific Use—Represents fund balance within the special revenue funds that is assigned for a specific purpose. The assignments' purpose relates to each fund's operations and represent the remaining amounts within funds that are not restricted or committed.
- Assigned for Future Payment—Represents fund balance assigned to cover potential budgetary shortfalls and funding set aside for housing development in the future.

It is the County's policy to expend fund balances in the following order: nonspendable fund balance, restricted fund balance, committed fund balance, assigned fund balance, and unassigned fund balance

15. RELATED PARTY TRANSACTIONS

The County provides BTASC with administrative services. The cost of these services has been included as expenses on BTASC's statements of activities. BTASC recorded an amount due to the County \$2,697 for the year ended December 31, 2024.

The County, through a purchase agreement, reimbursed the IDA \$5,000 for land in the Broome Corporate Park. The amount has been paid for out of the governmental funds for Department of Public Works.

The County, through budget resolution, provided administrative support for salaries and benefits to the LBC of \$121,961 for the year ended December 31, 2024.

The County, through budget resolution, provided administrative support for salaries and benefits to the LDC of \$117,148 for the year ended December 31, 2024.

16. INTERFUND BALANCES AND ACTIVITY

Interfund receivables and payables are short-term in nature and exist because of temporary advances or payments made on behalf of other funds. All interfund balances are expected to be collected/paid within the subsequent year. Interfund transfers are routine annual events for both the budget and accounting process and are necessary to present funds in their proper fund classification. The composition of interfund balances as of December 31, 2024 is shown in the table below:

	Interfund											
	_ R	Receivable		Payable								
Governmental funds:												
General Fund	\$	5,414,807	\$	16,726								
Capital Projects Fund		-		1,176,961								
Debt Service Fund		40,842		-								
Nonmajor funds		784,312		1,823,000								
Proprietary funds:												
Willow Point Nursing Home		-		2,370,000								
Aviation Fund		-		870,000								
Internal Service funds		16,726										
Total	\$	6,256,687	\$	6,256,687								

Transfers are used primarily to (1) move revenues from the fund that statute or budget requires to collect them to the fund that statute of budget required to expend them, (2) move receipts restricted to debt service from the funds collecting the receipts to the fund making payments when due, (3) move money to fund capital projects, and (4) move residual cash from closed capital projects.

The County made the following transfers during the year ended December 31, 2024:

_	Transfers in:															
_				Governm	enta	ıl funds										
				Capital		Debt								Internal		
		General Projects			Service			Nonmajor		Transit		Aviation		Service		
Transfers out:	Fund Fund Fund Fund		Funds		Fund		Fund		Funds	_	Total					
Governmental funds:																
General Fund	\$	-	\$	14,650,275	\$	-	\$	5 17,677,649	\$	1,134,586	\$	3,100,114	\$	1,100,000	\$	37,662,624
Capital Projects Fund		493,223		-		784,691		45,280		-		-		-		1,323,194
Debt Service Fund		551,149		-		-		226,013		-		-		-		777,162
Nonmajor funds				1,218,713												1,218,713
Total	\$ 1	,044,372	\$	15,868,988	\$	784,691	\$	5 17,948,942	\$	1,134,586	\$	3,100,114	\$	1,100,000	\$	40,981,693

In addition, there are interfund receivables totaling \$1,859,026 within the primary government which are owed by the College as of December 31, 2024.

17. LABOR CONTRACTS

The County's employees operate under eight collective bargaining units: the CSEA – Library (Unit #6151, Local 804), the CSEA (Unit #6150), the Broome Administrative & Professional Association (BAPA), the Amalgamated Transit Union Local #1145, the AFSCME - Local #1883, the AFSCME - Local #1912, the AFSCME - Local #2012, and the Law Enforcement Officers' Association. All contracts were settled as of December 31, 2024 and are negotiated through December 31, 2025.

18. TAX ABATEMENTS

All real property in New York is subject to taxation unless specific legal provisions grant it exempt status. Real property tax exemptions are granted based on many different criteria, including the use to which the property is put, the owner's ability to pay taxes, the desire of the state and local governments to encourage certain economic or social activities, and other such considerations. Most exemptions are granted under Article 4 of the Real Property Tax Law, but others are authorized by a wide variety of statutes ranging from Article 18-A of the real property tax law, the Agriculture and Markets Law to the Transportation Law. Certain exemptions provide full relief from taxation (wholly exempt property) and others reduce the taxes which would otherwise be payable by varying degrees (partially exempt property).

Some exemptions apply to taxes levied for county, city, town, and school purposes, whereas others pertain only to some of these purposes. Yet another difference involves the extent of local government autonomy: while some exemptions are mandated by state law, others are subject to local option and/or local determination of eligibility criteria.

The County is also subject to Mortgage and Sales tax abatements granted by the IDA under the Uniform Tax Exemption Policy. The IDA offers a full exemption of sales tax and mortgage tax to those that qualify, which usually consists of the first year commencing new construction.

The County has 51 real property tax abatement agreements entered by either the Broome County IDA, the City of Binghamton, and local municipalities. These agreements provide for abatement of real property taxes in exchange for a payment in lieu of taxes (PILOT) in compliance with the Tax Exemption Policy. PILOTs are granted in accordance with various activities such as new construction, purchasing of an existing facility, or the improvement or expansion of an existing facility. There are also policies for recapture of PILOTs should the applicant not meet certain criteria.

For the year ending December 31, 2024, the County collected approximately \$1.0 million from properties under the PILOT program and abated \$1.3 million (56.5% of tax value).

19. COMMITMENTS

Encumbrances—Encumbrances are commitments related to unperformed (executory) contracts for goods or services (i.e., purchase orders, contracts, and commitments). Encumbrance accounting is utilized to the extent necessary to assure effective budgetary control and accountability and to facilitate effective cash planning and control. Open encumbrances are reported as an assignment of fund balance since such commitments will be honored through budget appropriations in the subsequent year. The County considers encumbrances to be significant for amounts that are encumbered in excess of \$1,000,000. As of December 31, 2024, the County reported significant encumbrances as shown below.

<u>Fund</u>	Description	<u>Amount</u>
General Fund	Professional services	\$ 5,279,000
Transit Fund	Vehicles	7,087,927
Aviation Fund	Equipment	1,020,507

20. CONTINGENCIES

Grants—The County receives significant financial assistance from numerous federal and state governmental agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with terms and conditions, specified in the grant agreements and is subject to audit. Any disallowed expenditure resulting from such audits could become a liability of the governmental funds. While the amount of expenditures, if any, which may be disallowed cannot be determined at this time, management expects any amounts to be immaterial.

Litigation—The County is a defendant in a number of lawsuits. In the opinion of the County Attorney, after considering all relevant facts, such litigation in the aggregate will not have a material adverse effect on the financial position or results of operations of the County.

Environmental Risks—Certain facilities are subject to federal, state, and local regulations relating to the discharge of materials into the environment. Compliance with these provisions has not had, nor does the County expect such compliance to have, any material affects upon the capital expenditures or financial condition of the County. The County believes that its current practices and procedures for control and disposition or regulated wastes comply with applicable federal, state, and local requirements.

Regulatory Environment (Willow Point Nursing Home)—The health care industry is subject to numerous laws and regulations of federal, state and local governments. Compliance with these laws and regulations is subject to future government review and interpretation as well as regulatory actions unknown or unasserted at the time. Recently, government activity has increased with respect to investigations and allegations concerning possible violations by health care providers of fraud and abuse statutes and regulations, which could result in the imposition of significant fines and penalties as well as significant repayments for patient services previously billed. While no regulatory inquires have been made at the Nursing Home, compliance with such laws and regulations can be subject to future government review and interpretations as well as regulatory actions unknown or unasserted at this time. It is the opinion of management and its legal counsel that there will not be any material adverse effects on the Nursing Home's financial statements as a result of these actions.

21. SUBSEQUENT EVENTS

On April 24, 2025, the County issued \$20,611,899 in public improvement serial bonds and \$79,314,031 in BANs with interest rates ranging from 3.75 to 4.00 percent for various construction projects and equipment purchases. The bonds mature on April 15, 2044 and the BANs mature on April 24, 2026.

Management has evaluated subsequent events through July 10, 2025, which is the date the financial statements are available for issuance, and have determined, except as disclosed above, there are no subsequent events that require disclosure under generally accepted accounting principles.

Fund balances—ending	\$ 89,813,839	\$ 79,492,854	\$ 82,185,141	\$ 2,692,287

^{*} The net change in fund balances was included in the budget as an appropriation (i.e., spenddown) of fund balance and a re-appropriation of prior year encumbrances.

The notes to the required supplementary information are an integral part of this schedule.

Notes to the Required Supplementary Information Year Ended December 31, 2024

1. OPEB LIABILITY

Changes of Assumptions—In the January 1, 2023 actuarial valuation, the entry age normal actuarial cost method, over a level percent of pay was used. The single discount rate changed from 3.77% effective December 31, 2023 to 4.16% effective December 31, 2024. The salary scale assumed to increase at 2.5% per year. The sex-distinct and job category-specific headcount-weighted Pub-2010 Public Retirement Plans Mortality Tables for employees, healthy retirees, and contingent survivors, adjusted for mortality improvements with scale MP-2021 on a generational basis, were used for mortality rates. The 2022 New York State Employees' Retirement System rates were used for retirement rates. This rate was based on the April 1, 2021 to March 31, 2022 experience study released by the Retirement System's actuary and published in their August 2022 report. In order to estimate the change in the cost of healthcare, the actuaries healthcare cost trend rate used is 7.75%.

Discretely Presented Component Units:

i) SUNY Broome

Changes of Assumptions—Changes of assumptions and other inputs reflect the effects of changes in the discount rate each period. The following are the discount rates used in each period:

2. BUDGETARY INFORMATION

Budgetary Basis of Accounting—An annual budget is adopted on a basis consistent with accounting principles generally accepted in the United States of America for the General Fund. The Capital Projects Fund is appropriated on a project-length basis; appropriations are approved through County Legislature resolution at the project's inception and lapse upon termination of the project. No formal annual budget is adopted for the Debt Service Fund and BTASC Fund. Appropriation limits, where applicable, for the Debt Service Fund are maintained based on debt schedules.

The appropriated budget is prepared by fund, function, and department. Transfers of appropriations between separate funds and departments require the approval of the County Legislature. The legal level of budgetary control (i.e., the level at which expenditures may not legally exceed appropriations) is the functional classification.

Actual results of operations presented in accordance with GAAP and the County's accounting policies do not recognize encumbrances and restricted fund balance as expenditures until the period in which the actual goods or services are received and a liability is incurred. Encumbrances are only reported on the balance sheet of the governmental funds included within restricted, committed or assigned fund balance. Significant encumbrances are disclosed in the notes to the financial statements. The General Fund original budget for the year ended December 31, 2024 included an appropriation (i.e., spenddown) of fund balance and a re-appropriation of prior year encumbrances of \$11,704,286.

Excess of Expenditures Over Appropriations—For the year ended December 31, 2024, the County had budgetary expenditures in excess of the final budget amount within general government support of \$61,752,743, economic assistance and opportunity of \$38,796,067, health of \$23,049,366, education of \$5,534,295, principal of \$3,831,855, public safety of \$1,844,787, home and community services of \$1,499,438, and interest and other fiscal charges of \$126,731. During the year, the County will receive grants from federal and state agencies. These items are not included within the final budget amount. Accordingly, there are revenues received and corresponding expenditures incurred in excess of the final budgeted amounts. The excess in transfers out is related to unanticipated transfers related to additional capital projects.

Nonmajor Governmental Funds

Special Revenue Funds

The Special Revenue Funds account for and report the proceeds of specific revenue sources that are designated for specified purposes, other than debt service or capital projects.

<u>County Road</u> - Used to account for monies collected for administering County highway programs. Expenditures are for highway maintenance and traffic control.

<u>County Road Machinery</u> - Used to account for the financial transactions relating to the purchase, repair, maintenance, and construction of highway machinery tools, equipment, storage buildings, materials, and supplies.

<u>Library</u> - Used to account for the financial transactions of the County of Broome Library System.

Arena - Used to account for the financial transactions of the Visions Veterans' Memorial Arena.

<u>Office of Employment and Training</u> - Used to account for monies received under the Workforce Investment and Workforce Innovation and Opportunity Acts. Expenditures made from this fund support programs designed to increase the employability of unemployed youth, displaced workers, and the chronically unemployed.

En Joie Golf Course - Used to account for the financial transactions of the County golf course.

Internal Service Funds

Internal Service Funds account for the operations of County departments rendering services to other County departments on a cost-reimbursement basis.

Fleet Management - Used to account for the financial transactions of the County's fleet of vehicles.

<u>Central Foods</u> – As of December 31, 2023, the Central Foods Fund has been eliminated.

Health Insurance - Used to account for the County's self-insured program for health benefits which includes program administration, claims administration, consultant actuary services and other fees, health claims including prescription, medical and hospital claims, and stop-loss insurance associated with health benefits coverage.

<u>Workers' Compensation</u> - Used to account for the financial transactions of the County's administrated self-insured program for workers' compensation.

<u>Insurance Reserve</u> - Used to account for the financial transactions of the operation of the County's portion of self-insured casualty and liability claims.

<u>Unemployment Insurance</u> - Used to account for the financial transactions of the County's administrated self-insured unemployment insurance program.

Statistical and Economic Data (Unaudited)

This section presents tables that reflect social and economic data, and financial trends of the County. In some cases, the tables include statistical information for the towns, cities, villages, and school districts which are not part of the County reporting entity. It is intended to provide readers of this report with a broader and more complete understanding of the County and its financial condition than is possible from the financial statements and schedules included in the Financial Section. Many tables in this section include several fiscal years for comparative purposes and may present data from outside of the County's accounting records.

<u>Contents</u> <u>Page</u>

Financial Trends 97

These schedules contain trend information to assist the reader to understand how the County's financial performance and well-being have changed over time.

Revenue Capacity 103

These schedules contain information to assist the reader in assessing the County's most significant local revenue sources; principally, property and sales taxes.

Debt Capacity 112

These schedules present information to assist the reader in assessing the affordability of the County's current levels of outstanding debt and the County's ability to issue additional debt in the future.

Demographic and Economic Information

117

124

These schedules offer demographic and economic indicators to assist the reader in understanding the environment within which the County's financial activities take place.

Operating Information

These schedules contain service and infrastructure data to assist the reader in understanding how the information in the County's financial report relates to the services the County provides and the activities it performs.

Net Position by Components – Last Ten Fiscal Years

Direct and Overlapping Debt Activities

Table 13 (Concluded)

Many governmental subdivisions located within the County of Broome have authority to issue debt and levy taxes or cause taxes to be levied on the taxable real property within their boundaries. The amount of total debt outstanding at the end of fiscal years completed in 2024 as reported in the Special Report on Municipal Affairs is presented above. Amounts includable and amounts excludable from the debt limit are presented separately. The debt limit is a percentage of the five-year average full valuation of real property taxable for the specific municipality's purpose. The percentage is 7.0% for cities, towns and villages, 5.0% for school districts located wholly or partly in a city with a population under 125,000, and 10.0% for all other school districts.

Note: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the County. This table estimates the portion of the outstanding debt that is borne by the residents and businesses of the County. This process recognizes that, when considering the County's ability to issue and repay long-term debt, the entire debt burden borne by the residents and business should be considered. However, this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt, of each overlapping government.

- ^a Pursuant to applicable constitutional and statutory provisions, this indebtedness is excludable from gross indebtedness for purposes of computing the amount of the debt limit exercised.
- The percentage of overlapping debt applicable is estimated using the taxable full value for property tax purposes. Applicable percentages were estimated by determining the portion of another governmental unit's taxable full value that is within the County's boundaries and dividing it by each government's total full value.
