No animals may be left unattended in the park without the written permission from the Director of Parks and Recreation. This Paragraph shall not apply to dogs assigned to a law enforcement K9 unit, service animals*, or when specifically authorized by the Commissioner.
- Proof of rabies inoculation is required.
- Individuals bringing dogs or other animals in the parks or leisure facility shall be required to pick up and deposit in proper receptacles all solid waste from said animals.
- Horseback riding, farm animals and petting zoos are not allowed on park property unless deemed appropriate by the Director of Parks and Recreation in extenuating circumstances.
- Feeding waterfowl is prohibited. Artificial feeding of waterfowl can cause an array of issues including poor nutrition, water pollution, delayed migration and spread of diseases.

SERVICE ANIMALS

From the U.S. Department of Justice “Frequently Asked Questions About Service Animals” (February 2020)

“Under the ADA, a service animal is defined as a dog that has been individually trained to do work or perform tasks for an individual with a disability. The task(s) performed by the dog must be directly related to the person's disability.”

The ADA does not require covered entities to modify policies, practices, or procedures if it would “fundamentally alter” the nature of the goods, services, programs, or activities provided to the public. Nor does it overrule legitimate safety requirements. If admitting service animals would fundamentally alter the nature of a service or program, service animals may be prohibited. In addition, if a particular service animal is out of control and the handler does not take effective action to control it, or if it is not housebroken, that animal may be excluded.
