

CRITICAL FACILITIES

A comprehensive inventory of critical facilities in Broome County was developed from various sources including Broome County GIS and input from the Steering and Planning Committees. The inventory of critical facilities presented in this section represents the current state of this effort at the time of publication of the draft HMP and used for the risk assessment in Section 5.

Essential Facilities

This section provides information on emergency facilities, hospital and medical facilities, shelters, schools, and senior care and living facilities.

Emergency Facilities

For the purposes of this Plan, emergency facilities include Emergency Operation Centers (EOC), police, fire and emergency medical services (EMS). Table 4-10 through Table 4-13 provide an inventory of EOC, police stations, fire stations and EMS facilities in Broome County. Figure 4-18 displays the location of these facilities as based on the project critical facility inventory.

Critical Facilities are those facilities considered critical to the health and welfare of the population and that are especially important following a hazard. As defined for this HMP, critical facilities include essential facilities, transportation systems, lifeline utility systems, high-potential loss facilities, and hazardous material facilities.

Essential facilities are a subset of critical facilities that include those facilities that are important to ensure a full recovery following the occurrence of a hazard event. For the County risk assessment, this category was defined to include police, fire, EMS, schools/colleges, shelters, senior facilities, and medical facilities.

Schools

The Broome County Government website indicates the Broome-Tioga Board of Cooperative Educational Services (BOCES) district serves 15 school districts with nearly 35,000 students in kindergarten to grade 12, as well as many other adult programs. In total, there are 19 school districts serving the County. In addition, Broome County is home to the following colleges and universities (Binghamton University, Broome Community College, Davis College and Ridley Lowel Business & Technical Institute). Refer to Figure 4-20 and Table 4-17 for the schools in Broome County. Table 4-18 lists the colleges in Broome County.

Transportation Systems

This section presents available inventory data for roadways, airports, railways and other transportation systems for Broome County. Figure 4-22 shows regional transportation systems serving Broome County.

Figure 4-22. Transportation Facilities in Broome County

Source: Broome County GIS

Highway, Roadways and Associated Systems

Travelers from the New York City area generally use Interstate 81, running through Kirkwood into Binghamton, to access Broome County from the south. Interstate 88, connecting Binghamton and Albany, runs along the eastern portion of Broome County. NYS Route 17 is a major expressway traversing east-west through the County. There are 508 bridges identified in the Broome County.

The Broome County’s Department of Public Works is comprised of the following six divisions: Administration, Engineering, Building and Grounds, Security, Highway and Solid Waste Management. Through the combined efforts of these divisions, the County maintains 17 campuses; 343.24 centerline miles of roads and is responsible for maintaining county bridges.

Table 4-20 below lists the Department of Transportation facilities/offices located in Broome County. Table 4-21 below lists the Public Works facilities in Broome County.

Airports and Heliports

The Binghamton Regional/Edwin A. Link Field, also known as the Greater Binghamton Airport, is owned and operated by the Broome County Department of Aviation. The Greater Binghamton Airport is located eight miles north of the Binghamton metropolitan area. The Tri-Cities Airport, once a public airport, is now privately owned and managed by Goodwin Aviation. The Luke Airport, Chenango Bridge, and Kirkwood Airpark are privately owned airports in Broome County. Table 4-22 provides a list of airports in Broome County with the locations provided in Figure 4-22.

Railway

There is approximately 120.6 miles of railroad in Broome County. This includes rail owned by Canadian Pacific Railway (St. Lawrence & Hudson Railway and Delaware and Hudson Railroad), New York Susquehanna and Western Railway (Conrail Railroad and Erie Lackawanna Railroad), Norfolk Southern Railway Co. (Conrail Railroad). Figure 4-22 shows the railroad located in Broome County as provided by Broome County GIS.

There are no ferry or light-rail systems in Broome County.

Public Transportation

The Broome County Government website indicates the Broome County Department of Transportation owns and operates a fixed-route transportation system that services Broome County. This public transportation system offers the following services: B.C. Transit Route Buses, B.C. Lift, B.C. Country, and Office-For-Aging (OFA) Mini-bus. The B.C. Transit Route Bus fixed-route system serves the City of Binghamton, Village of Johnson City, Village of Endicott and Town of Vestal. The B.C. Lift is a door-to-door bus service for individuals with disabilities in the urban areas of Broome County. The B.C. Country is a bus service that travels to the rural areas of Broome County and provides transportation to the more urban areas. B.C. Country's service area includes the Village of Whitney Point, Lisle, Kirkwood, Village of Deposit, Windsor, Maine, and certain locations in Chenango and Vestal. The OFA Mini-bus is a bus service for people 60 years of age and older that need to travel to the urban areas of Broome County. All B.C. Transit buses are wheel-chair accessible (<http://ridebctransit.com/transit>). In total, there are 793 bus stops throughout the County.

Lifeline Utility Systems

This section presents potable water, wastewater, and energy resource utility system data. Due to heightened security concerns, local utility lifeline data sufficient to complete the analysis have only partially been obtained.

Note: There are two closed power plants: AES Westover (Old Gowdy Station) and Co-Gen (old Anatech site)

Energy Resources

Electric Service in Broome County is provided by NYSEG. The BC GIS data indicates Millennium pipeline running east-west across the central portion of Broome County. Table 4-26 identifies electric and gas facilities in Broome County, as compiled in the critical facility database developed for this plan update.

Communication Resources

According to the original Plan inventory, there are 82 communication towers located in Broome County as well as other communication resources. Table 4-26 below summarizes these resources as compiled in the critical facility database developed for this plan update.

High-Potential Loss Facilities

High-potential loss facilities include dams, levees, nuclear power plants, military installations and hazardous materials (HAZMAT) facilities. No nuclear power plants or military installations were identified in the Broome County. Dams and levees are discussed below.

Dams

There are 41 dams in Broome County as illustrated on Figure 4-24. Twenty-one dams are considered Hazard Category C “high-hazard” dams and require Emergency Action Plans (EAPs). Further information on dams in Broome County can be found in Section 5.4.1, flood hazard profile.

Other Facilities (User Defined)

The user-defined facilities category includes all assets that the Steering Committee and participating municipalities deemed critical to include in the inventory and that do not fit within a pre-defined HAZUS-MH facility category. These facilities include municipal halls and County-owned buildings, etc. Table 4-29 below lists all user-defined facilities identified in Broome County.
